

BarthHaas®

# SUSTAINABILITY REPORT 2021

**DEAR FRIENDS AND BUSINESS PARTNERS  
OF OUR COMPANY,**

Just one week after the publication of the BarthHaas Report, there is more news: Our Sustainability Report 2021 for BarthHaas Europe is available for download as of today.

We are pleased to bring you, our most important stakeholders, this sustainability report. Not only does our report give you an in depth look at the steps our sustainability teams in Germany and the UK have taken to prepare BarthHaas Europe for a future of responsible and environmentally friendly hop growing, processing, and trading, but it more importantly, outlines how we are moving forward to not only do the minimum required of us, but go above and beyond as environmental stewards in our communities.
