

Lençois Paulista, August 6th, 2021.

To our stakeholders:

I am pleased to confirm that BRACELL reaffirms its support to the ten principles of the UN Global Compact, regarding human rights, work, environment and the fight against corruption.

In our annual Sustainability Report we describe our actions, commitments, programs and projects to continually improve the integration between the Global Compact principles in each of the four thematic areas (human rights, work, environment and against corruption) in our business strategy, culture and daily operations.

Sincerely,

A handwritten signature in blue ink that reads "Per Lindblom". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Per Lindblom
