

POWERSION (PVT) LTD

Safety, Health, Environmental and Quality Policy Statement -2021

Powerision Private Limited commits itself to the achievement of and the creation of a culture whereby Safety; Health; Environmental and Quality matters become an important component of our everyday business activity in the provision of Power backup and protection services to our customers.

We seek to continually improve our Safety, Health, Environmental and Quality management performance. To achieve this, we aim to:

- i. Set out appropriate Health, Safety, Environment and Quality objectives and assign clear responsibilities for their achievement.
- ii. Prevent the occurrence of occupational accidents, and reduce risks associated with our work in electrical services and repairs to associated equipment.
- iii. Comply with all the applicable legislation, including the Factories and Works Act and its regulations, IEE Wiring Regulations and ISO14001 standards on Environmental Management.
- iv. Provide suitable and adequate resources, information, instruction, training and supervision to enable all employees to identify, minimize and manage work hazards and communicating with regulatory authorities and other stake holders and interested parties on Health, Safety and Environment issues.
- v. Meet the needs and expectations of our customers in the design, supply and installation of reliable and innovative technologies and products in our sector as well as satisfy the requirements of ISO 9001: 2008 standard on quality management.
- vi. Committed to continuing improvement of our products and services to achieve increased customer satisfaction as well as to ensure compliance with the requirements of the Quality Management System and strive for continuous improvement.

This policy is reviewed regularly and communicated internally and externally in line with changing stakeholder needs and expectations.
