

Environmental Policy Statement

Sasini PLC acknowledges that the environment is the key primary stakeholder in our business and is committed to leading the industry in minimising the impact of its activities on the environment by preserving and protecting the environment.

To achieve this Sasini PLC will:

- Use integrated waste management processes to minimize potential risks to the environment and human health as we promote efficient operations.
- Develop and maintain environmental management programs with objectives and targets to minimize adverse environmental impacts.
- Implement effective pollution prevention and waste minimization programs to reduce, reuse, and recycle materials.
- Communicate our environmental commitment to our clients, customers, suppliers, and the public while encouraging them to support our initiatives in a bid to promote greater environmental responsibility.
- Actively promote recycling both internally and amongst our customers and suppliers.
- Source, purchase and promote use of environmentally friendly products as far as practically possible and source only from suppliers who commit to our environment policy objectives.
- Comply with all applicable environmental, health, and safety laws, regulations, and other requirements that relate to the Company.
- Conserve and restore the ecosystem as we ensure that energy and water are used responsibly and conserved through innovative practices and procedures.
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.
- Promote environmental awareness among our employees and provide all our staff with the training and knowledge needed to meet the goals of our environment policy, encouraging them to work in an environmentally responsible manner and to actively participate in efforts to prevent negative environmental impacts.
- Continually improve our environmental performance and measure progress toward our environmental goals.

Martin R Ochien'g
Group Managing Director
