25<sup>th</sup> August, 2021

United Nations Global Compact,  
New York,  
NY 10017, USA.

**Attn: U.N. Global Compact.**

It is my privilege and honor to renew the POWER Ministries International Inc.'s commitment to support the ten principles of the UN and the U.N. Global Compact.

We strongly emphasize our complete support in practicing the ten principles of U.N. Global Compact to all the Organizations and their leaders whom we are teaching and training.

Every year we arrange two International Leadership Training Conferences in New Jersey bringing delegates from almost every part of the world. During the last Conference, we had delegates from about 58 countries.

Since most of the delegates are CEO's or decision makers, we have been able to train them to reach their maximum effectiveness as well as creating the awareness of Human Rights.

POWER INSTITUTE OF LEADERSHIP, INC is the training Division of Power Ministries International.

We would like to effect a change in the corporate world as well as in the community in the following areas:

**Education and Training:** To bring out the maximum effectiveness.

**Equipping the Village Clinics** by providing basic Diagnostic Instruments.

**Fighting against the Malnourishment among Children:** Distributing meal Replacement bars.

Last year, we visited Nigeria, Kenya, Zambia, South Africa, Asia, Haiti, Dominican Republic etc. and conducted training workshops.

We are getting many reports from the countries we visited of how their lives had been impacted by Power Ministries International, Inc.

Wherever we travel and train, **we give special emphasis on the ten principles of UN Compact and support human rights** and committing ourselves to increase in the days to come.

We have decided to work with Global Compact local networks in every country we will be visiting.

We are so proud to be a part of U.N Global Compact.

Sincerely,

Varges George,

President & CEO
