## MESSAGE FROM THE MANAGEMENT BOARD

In the world that is constantly changing, our children are faced with challenges and problems that didn't even exist before. These challenges and problems can be viewed as obstacles, but we choose to see them as opportunities for our students to grow. Since 2005, we have been providing best practice education, through meaningful and enjoyable learning, to develop our students' true potential.

In our endeavour to support young minds thrive and become responsible global citizens who honour their heritage and embrace international-mindedness, we are committed to support the development of their independence, nurture their characters in becoming highly-principled individuals and foster appreciation towards diversity. These traits are essential in this diverse world, to allow the students interact comfortably in a variety of settings.

Through rigorous learning model, students participate actively and develop a sense of responsibility for their own learning. They reflect on their progress and are eager to improve. With the immense support from our talented and dedicated teachers and supporting staff, the school provides a warm and inclusive atmosphere.

We believe that through close communication with parents, we can support the students in developing their talents, skills and interests, to become creative, compassionate and resilient individuals. We're looking forward to working hand in hand with parents as well as other members of the school community, to nurture the love of learning.

Dr. Iwan Kresna Setiadi, S.E., M.M.  
Management Board of Sekolah Pilar Indonesia

## **VISION**

Be an outstanding school with an Indonesian cultural identity by providing an effective learning environment that enables students to be: **INDEPENDENT, HIGHLY PRINCIPLED and to APPRECIATE DIVERSITY**

## **MISSION**

To prepare students to become intellectual and responsible citizens  
To provide an effective educational environment  
To preserve own culture through the learning process

## **OUR UNIQUE EDUCATION SYSTEM**

Established in 2005, we have been providing prominent educational experience and building an effective learning environment, to promote lifelong learning.

Sekolah Pilar Indonesia aims to develop each child's true potential through meaningful and enjoyable learning. We provide opportunities for students to explore their talents and interests, as well as to grow intellectually and emotionally.

We are also an inclusive school that provides equal opportunities for all children, including children with special needs, to grow and thrive.

Sekolah Pilar Indonesia integrates the national curriculum with the best of international curricula.

We have received "A" accreditation from Badan Akreditasi Nasional Sekolah/Madrasah and are an International Baccalaureate World School, eligible to conduct the Primary Years Programme.

We support and encourage students not only to have international perspectives, but also awareness of their identity and culture. It is our passion to witness the students grow into well-rounded, compassionate and competent individuals, who contribute actively to the world.

## **EDUCATION**

Education is a measuring tool that must be able to guarantee equal opportunity, improvement and relevance of quality. Equitable opportunities in education are manifested in the 9 years compulsory education program as the main capital to compete in the world of work. Improvement of quality and relevance of quality can be realized by thought heart, mindset, physical exercise, and so on. Quality improvement activities should be carried out from early childhood.

Therefore, Sekolah Pilar Indonesia through Sharing is Caring provides teaching and sharing for children. The beginning of this activity was started in 2006 which is starting from a community in the area close to our school, Ciangsana.

The learning system is teaching English and Arts to Kindergarten and Primary students, where 2 teaching volunteers teach 15-20 students. This system is implemented with the hope of creating a comfortable and pleasant teaching atmosphere for both students and teaching volunteers.

## 1. Teaching English and Arts in Ciangsana

## 2. Collecting Books for Donation in Ciangsana

In fulfilling the need for reading books in neighborhood area, Student Council in collaboration with all levels of students and parents in the field of book collection. The total books collected were 1200 Books and donated to some places around the school in area.

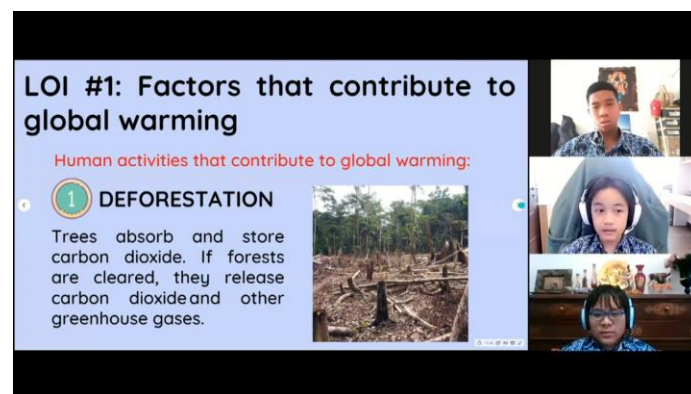

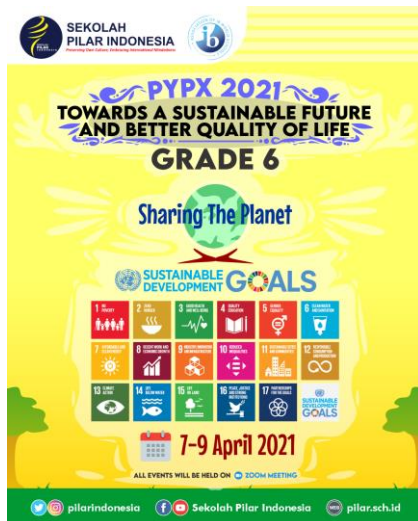

### 3. Donation for Orphanage in Ciangsana

Every year students of class 6, 9 and 12 visited an orphanage for sharing books, stationery and staples such as rice, sugar, vegetable oils and etcetera. It is a blessing moment for them to know each other and start building relation with orphans there. With this donation, it is hoped that it can increase the enthusiasm for learning for younger siblings in that orphanage.

## 4. Primary Exhibition: Towards a Sustainable Future and Better Quality of Life

The exhibition is a culminating activity in primary year programme annually. It is done by grade 6 students. In 2021 the theme of the exhibition is “Towards a Sustainable Future and Better Quality of Life”. The students share their research findings and actions to promote sustainability.

## WELL-BEING

### 1. Donation for Flood Victims in Bekasi

SDN Jatirasa 5 Bekasi is located in the slope and surrounded by a river as a result almost every rainy season the school get flood. Last year, we donated around 100 pairs of shoes. Hopefully they will always be enthusiastic to come to school and study.

## 2. Fund Raising for Sulawesi Selatan and Lombok Earthquake Victims

Hundreds of people passed away due to the earthquake in Sulawesi Selatan and Lombok, hundreds of injuries and trauma hit their lives, thousands of houses were destroyed by the earthquake. The society is confused with the existing conditions, a helping hand is needed from all Indonesian people to help the suffering of Sulawesi Selatan and Lombok people. Students, parents and staff moved to help the suffering victims in these 2 areas by raising funds and donation to help and alleviate the suffering of the people there.

### 3. Share the Love in Ramadhan

The big family of Sekolah Pilar Indonesia took the opportunity to express our gratitude to the Supporting Team. Witnessed by the representative of parents, students, teachers, staff as well as Junior and Senior High students who joined through Zoom, we shared our token of appreciation to the whole Supporting Team for their hard work, sincerity and dedication.

## ENVIRONMENT

### 1. Biopore Making

Making of biopore is one of student activity that has been carried out since 2015 for school area. All food waste is from school canteen, kitchen that organized by Student Council and dried leaves collected from garden and parks. Since pandemic it cannot be done.

## 2. Auction for Clean Water

Student Council through Pilar Peduli collaborates with Kaka Slank for an auction. Results from the auction of merchandise are used for Air Bersih NTT.

## HEALTH

### Charity for Public Health Centre and doctors

As part of the contribution to the society, our school conducted a charity programme. We donated medical protective equipment for doctors and hand wash equipment public health centre and some clinics around the school.

## PRESERVE INDONESIAN CULTURE

### 1. Pilar Seni Nusantara

To introduce and preserve Indonesian culture, our school held annual colossal drama nusantara participated by students from early childhood to senior high, teachers and parents.

## 2. Festival Keroncong Muda Pilar Indonesia

Most of people think that Keroncong music relates to oldest. To change this paradigm, our school introduce and preserve keroncong music through festival that held annual. The participants are from Java and Sumatra island.
