USA

To our stakeholders,

I write this Grace Letter to request that Technical Assistance to Non-Governmental Organizations (TANGO) International, Inc. receive **an additional 90-day grace period** for submission of our annual Communication on Progress (COP) report. We recognize that the COP is a key requirement for participation in the UN Global Compact, comprised of a CEO/President statement of continued support for the UN Global Compact and a description of practical actions with regard to the Ten Principles, and a measurement of outcomes or expected outcomes. I confirm that TANGO continues to support the Ten Principles of the United Nations Global Compact on human rights, labor, environment, and anti-corruption.

The past year (2020-2021) has been an unprecedented time for our company, and indeed the world as the COVID-19 pandemic continues. Recently, TANGO's executive officers have been directly affected by COVID-19 causing the need to shift our company's workload in various ways. We are late in preparing and posting our COP report for this reason.

We hereby ask for an extension period for posting the COP to the UN Global Compact website by Tuesday, **14 December 2021**. With this communication, we express our intent to make a clear statement of this commitment and of our progress in the due time frame.

Thank you for your time and consideration of this request.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Frankenberger".

Mr. Tim Frankenberger
President
