CEO statement of support for the United Nations Global Compact

Since 2018, Viterra continues to be a proud participant of the United Nations Global Compact. We incorporate the Ten Principles on human rights, labour, environment and anti-corruption into our business and operations along our supply chains including our subsidiaries. We support the 17 United Nations Sustainable Development Goals (SDGs) and take active measures to contribute to goals 1, 2, 3, 5, 6, 8, 12, 13, 15 and 17.

As a global leader in agricultural commodities, we understand the vital role we play in the lives and safety of those who work for us and in the communities where they live. We care about those communities, our suppliers and customers, and the environment we all share, ensuring we fulfil and go beyond our legal requirements to manage the risks inherent in our business and maintain our social licence to operate.

Our focus on sustainability is underpinned by four pillars: health and safety, environment, community and human rights, and food and feed safety. Our activities encompass all of our employees, our supply chain and local communities, wherever we operate. Our approach is supported by a robust structure that ensures our standards meet or exceed legal requirements and our performance is closely monitored.

Our commitment is built on our values of :

- we make things happen;
- we are responsible;
- we are connected;
- we are open and
- we look ahead.

These values provide the foundations for our policies, procedures and processes, which in turn guide our decision-making down to the specific needs of individual operations. This Communication on Progress demonstrates our continuing efforts to make progress on the Ten Principles, SDGs and towards achieving our collective global goals.

Yours sincerely,

David Mattiske

Chief Executive Officer
