**Javier Roquero Ussia**  
CEO  
SALTO Systems

I am pleased to confirm that Salto Systems reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-Corruption.

In this our first annual Communication on Progress, we describe our actions to integrate the Global Compact and its principles into our business strategy, culture and daily operations.

We have lived through an exceptional situation during these months, but we have not stopped directing the efforts of our entire team to demonstrate that economic development is not inconsistent with the protection of the planet and those who live on it. We have continued to grow as an organisation, with greater demands in terms of structure, integration of the diversity of cultures, commitment to people and to technology and innovation. A challenge that encourages us to go further in our commitment to sustainability.

We are also committed to share this information with our stakeholders using our primary channels of communication.

Yours sincerely,  
**Javier Roquero.**
