Welcome Note....

Youth Foundation of Bangladesh(YFB); we working with the most powerful portion of our population YOUTH. Because Youth are the future leaders, planners and decision-makers of our nation thus the world. They are the most energetic and productive segment of the total population.

We are working for eradication of poverty, quality education, gender equity, empowerment of youth, reducing inequality, human rights and addressing social, economic & environmental problems with our energetic team and vast network of youth volunteer across the country thus world. Since 2009 we are building capacity & awareness among the people of Bangladesh through our dynamic programs which created a decent acceptability for YFB in national and international arena.

Since the beginning we initiated many programs which were mainly youth-centric and dedicated for awareness building of people. Soon after the initiation of SDGs in 2015 we adopted all our programs with specific goals of SDGs and our ultimate goal set to building capacity of our nations and neighboring countries for achieving sustainability by 2030. Also each year we with our team designing pathway and finding solutions for the challenges of achieving SDGs. Thus we are bringing new programs which carries strong values and vast impact on our population.

About Us....

History....

"Youth Foundation of Bangladesh (YFB) is a non-govt. non-profitable and non-political voluntary Youth organization. It was established in 19th October 2009, with the initiation from a group of young minds who are social oriented, aim to confirm youth engagement in the relevant of social aspect, youth development, youth self-actualization, to change the socio-economic, exchange culture, aware people to change and develop country as well as better Bangladesh"

YFB Principle

- To involve the youth in the mainstream of sustainable development process.
- Confirm Youth Engagement toward SDGs through social activity, skill development, learning session and capacity building.
- Learning & Sharing tolerance, understanding, solidarity and cooperation among young men and women irrespective of race, sex, language, religion or political orientation.
- Collect & Promote the interchange of ideas between youth of all countries.
- To transform the unemployed youth into organized, disciplined, productive and proactive workforce.
- To facilitate the unemployed youth for self-employment/wage employments at home and abroad providing skill development training and micro-credit support.
- Engaging different sector in order to confirm Corporate Social Responsibility with their higher satisfactory business cooperation.
- Facilitate the collection of information about the needs and problems of youth.
- Disseminate information about the methods, techniques and activities of youth organizations.

Our Vision....

"Empowering Youth for the Sustainable Future."

YFB is completely youth based organization. Our aim is to unite youth and to build their living meaningful. Every youth have the ability to change the social, environments thus make a strong impact but first by changing thyself. It is youth's responsibility to build the foundations of social atmosphere. Our vision is to awake up the perception of social responsibilities in every youth of the world. If it is achieved, then youth will bring peace and happiness thus build a sustainable world for the future generations.

Covid-19 Emergency Response Program

Climate Action Campaign Tracker (CACT)

Youth Engagement Program for Climate Action

CACT is a program by which we (YFB) identify individuals from youth segment who are committed and enthusiastic regarding environment and climate change. By tracking and connecting them through our campaign; we share ideas and initiatives that can prepare the whole nation to face the climate war. As a program activity we are organizing seminars, national and international day celebrations, and international events and workshop at different schools, colleges, universities & institutions around Bangladesh. We targeted to connect 23,789 educational institutions including 129 universities to track individual to work for climate action. With this program we also bridged YV4CA (Youth Voice for Climate Action) Campaign initiated by SDG Helpdesk.

Program Activities

CACT Campaign Workshop

Workshop on Climate Change and its effects

An interactive workshop engaging youth with different climate games that create awareness on climate change and its adverse effect on the most vulnerable victims of climate change.

Seminar/Discussion Session

Awareness and discussion session regarding SDGs and climate change.

Survey

Video Statement/Feedback

Produce an official video or written statement expressing your youth opinions, ideas, and concerns surrounding the imperative need for climate action in your country and beyond.

Sharing Social Media & Outreach Materials

Participants will be also encouraged to adopt the campaign CACT & YV4CA by sharing it among their friends and network. For this, they can use social media and outreach assets material found on our page and website.

Campaign Outcome:

- Participants will gain experience on the effect of climate change and the subsequent consequences (migration, change of profession, health-social-economical insecurities and challenges etc.) through climate change game.
- Participant will also gain idea about how can an individual initiate climate action.
- Awareness, commitment & capacity building of youth toward climate action

Some of Participating Institutions in 2020:

- *Jahangirnagar University*
- *Khulna University*
- *North South University*
- *United International University*
- *Green University*
- *Daffodil International University*
- *Uttara University*
- *Bangladesh University of Professional(BUP)*
- *National Govt. Primary School, Dhaka*
- *National Bangla High School, Dhaka*

Program Duration

Ten Years

Program Budget:

Total Budget: 475.78 Million BDT

Annual Budget: 47.57 Million BDT

ECCM

Empowering Climate Change Migrants: Capacity building program to empower migrants due to climate change.

Program Activities

Kormomukhi Proshikkhon Kendra: Capacity Building through training for climate change migrates lives at Khulna city slum, Bangladesh

Outcome objectives

Ensure better job for current generation and further ensure sustainable development with even bright future for their next generation by ensuring education

Planned outputs

Higher living standards for migrated slum dwellers

We are establishing skill development center with aim to turn the people into skilled resources.

- **Activities of the project**
 - I. Setup training centre
 - II. Provide training for different technical jobs like electrical wiring & maintenance, maintenance of electronics like Fridge/TV/Computer, maintenance of automobile and driving to young person’s having education class VIII or above
 - III. Upon successful completion of course we shall provide them link to get job or shall provide financial assistance to start own small business (freelancing work on his trade)
 - IV. Provide training on handicrafts, blocks, boutiques and related processes especially to the young girls. Related ICT training to eligible youths (having class VIII or more education)
 - V. Pre-training schooling of one/two year for those who are already drop out young but lack eligible education for any of the above trainings

- **Envisaged Outputs**

Turn non-skilled potential informal market jobholders into Skilled resources who would fit better in job market and earn better. By earning better they would be able to increase their living standards especially that will enable them to send children to school.

Local Economic, Challenges & associate drivers: Natun Bazar Slum is situated at the edge of Khulna city and by the bank of Rupsha river. The local economic activities mostly related with small and medium business. Few people are involved with formal sector job like corporate offices, banks and so on. The slum people at Natun Bazar are mainly involved with fishing business, street hawking, Tea Stall, Rickshaw Pulling and ezzy-bike riding and other small businesses.

Social Challenges: Main social challenges are low income social insecurity and unable to continue children schooling.

Climate Challenges: The slum dwellers are already sufferer from Climate change, they are compelled to leave their origin for river erosion, cyclone and so on. Main challenges are increased household vulnerabilities, loss of livelihoods, loss of assets, loss of social networks and the drivers of these challenges are losing shelter & Livelihood,

Situation regard to climate induced migration: The climate induced migration eventually brought them to a city slum where they have to compromise the healthy environment including sanitation, have to accept low income informal occupation and children education especially practice early marriage for girl children.

Opportunities: Due lack of proper skill, these people are unable to earn better from a growing economy like Bangladesh. Just for lack of skill development opportunity, the people are choosing informal sectors and eventually live with a low paid job. We want take this opportunity to turn the people, especially the youths, into skilled resources through training.

Community engagement

Youth Foundation of Bangladesh already have a pilot project of capacity building in this area and recently we have done a survey to identify the problems and beneficiaries of this project and concluded on priority for the beneficiaries. As we found school dropout children, early marriage of the girl keeps then unskilled for good job market and thus transmitting the poverty through the generation. Our conclusion is to break the transmission of poverty by making youth into skilled human capital.

Approach to engage community: We have already engaged with this community through our recent survey. We have talked with slum owners or slum leaders about this project. In later stage, before starting this project we will inaugurate a briefing session or seminar with local community and authorities to discuss about the significance of this project.

Following steps will follow before launching:

As part of community engagement, we may engage local ward commissioner as an active advisor and opening the class/project through him. With his support, we shall also apprise city mayor for seeking their support for this. We shall also inform local administration about the project and request them for their support as & when necessary.

We shall engage ourselves for proactive stakeholder’s management, meet them on routine basis and make them understand the value of the project outcome. Hope they would also own the project and extend their necessary help.

Expected Government support:

Direct and indirect collaboration with local authority to strengthen the project activities

Take administrative support to get free from future risk and hassles

Since we are going to establish training center for building capability of slum inhabitants, we will introduce, Youth Group, Local Community and Institutes.

Program Duration

Three Years

Program Budget:

Total Budget: 30 Million BDT

Annual Budget: 10 Million BDT

“Fate of Single Use Plastic (SUP) on inland water transport & its catastrophic effect on River”
An awareness and participatory Program to Achieve SDG-6 & 14

Background of the Program

Bangladesh is a riverine country. Although transport system has significantly developed on past few decades, still water transport remained one of the major medium of transportation for passengers and transporting goods across the country. Everyday numerous number of water vehicle transporting passengers and goods within the inland water-way of our country and among the peoples living by the places nearby river; launch is one of the most reliable medium of transport. It is more preferable than any other means due to comfort and affordability. Everyday around two lac people travels from one division to other via major launch routes of our country and millions in other inter district/division local launches. Thus a massive amount of waste generates (which includes food waste, human sludge, oil and others) during this trips and those became one of the major source of pollution of our rivers.

Inland water transports and Pollutions: Observations

Among different types of water vehicle such as small boats, engine boats, speedboats, launches are most preferable inland water transport and mainly used during longer trips. So naturally almost every kind of consumables are available there including foods, beverage and this transports generates a massive amount of waste during each trip. Also passengers carries foods and other usable items on plastic bags during the trips on launches. All those trashes created during the trip including non-degradable plastic bottle, poly packs, often find their place in river due to lack of awareness of passengers and managements Even waste and trashes accumulated during cleaning of launches often kept alongside dustbins nearby riverbanks which sequentially find their places on river due to lack of proper governance. Majority portion of those waste are non-degradable and toxic materials which subsequently polluting water, destroying bio-diversity, threatening lives in water and most importantly severely affecting environment. By the time toxic byproducts created from those also entering in our food chain.

Catastrophic effect on river

Due to lack of awareness and proper governance we are polluting river in numerous means among those dumping waste on river is one of the major source and majority portion of those are non-degradable materials. Everyday each person of our country generating waste of 800g among which 17% is plastic and polythene. During river cruise this generation raise by 20% also percentage of non-degradable materials among the waste raise up to 30%. Which creates early 16000 tons of plastic waste and maximum portion of this finds their place in river water. So the catastrophic effect is easily understandable. This enormous amount of waste which requires millions of dollar to be recycled became more expensive to re-collect from river and environmental cost becomes unimaginable. Those diffract sunlight from entering into water thus destroys life below water. Also by the time combining with other wastes they accumulate into the bottom of river and the micro plastics, nutrients enter into food chain; thus threatening lives in liver and ocean subsequently.

Objective of Our program and Activities

Bangladesh government has already taken several effective program and initiative to save river and conserve fisheries to achieve SDG. Many social organizations and NGO working alongside with government to achieve SDG-14 hence we Youth Foundation of Bangladesh (YFB) has undertaken an awareness and participatory program in order to develop awareness regarding “Fate of Single use Plastic (SUP) on inland water transport and its catastrophic effect on River”. This program designed to aware people about the SDG 6 & 14 and the effect of waste in river. It will also demonstrate how simple awareness can make a difference from throwing thousand tons of plastic into river and conserve the environment of water.

Objectives:

- Create awareness to keep launch terminal and launches clean.
- Ensure dustbin and recycle bins on launch terminal and launches.
- Observe waste disposal/management system/facilities of inland terminals and suggest necessary remediation.
- Create awareness to stop dumping waste from launches to river.
- Ensuring continuous worker to maintain cleanness and environment on terminal and launches.
- Providing training to existing facilities and worker regarding waste disposal/management, cleanness.
- Encourage and ensure SDG-14 awareness messages to be printed on launch tickets in order to promote SDG.
- Promoting cleanness and goals of SDG, especially SDG 14 by ensuring visible signboard in launch and launch terminals.
- Providing and ensuring video documentary to be played on the TV screens of launches and terminal; explaining catastrophic effect of waste and how to avoid it. Also this will be proposed to be telecasted on national media.
- Aware every kind of water transport to maintain cleanness and waste disposal.

Awareness Programs

To successfully create awareness regarding SDG-14, avoid dumping waste on river several initiatives will be demonstrated gradually. Those are

- YFB will engage our vast team of youth volunteer including selected volunteer team from different social organization, students from educational institutes (school, college and university etc.)
- Contemplative and dynamic campaigns will be held on different launch terminal and launches to promote the program goal and awareness.
- Objectives and awareness will be promoted and displayed to the Passengers of launches through various interactive campaign event.
- Leaflet, notice board, banner and sticker will be distributed among passengers and stakeholders.

- Launch terminal and launches will be provided with sustainable and eco-friendly recycle bins.
- Documentary based on SDG awareness, effect of SUP in water and its proper management will be prepared, telecasted on TV and displayed on terminal and launches.
- Year-long campaign on launch terminal along with launches, seminar, workshop and knowledge exchange program with govt. officials, inland water transport authorities, launch owner and workers, businessman, leaseholders will be conducted simultaneously during the program to promote SDG-14 and awareness.
- Dedicated workshop & awareness sessions for the in-house staff of each launch company will be held during the program.
- Sponsoring & Supporting organization/personnel with this program will be entitled and awarded as SDG sailor. Their name will be published with program reports and will be proposed to govt./ministry to recognized nationally for contributing promote SDG.

Coordination with Stakeholders

During crises such as this, strong coordination between all stakeholders is essential. YFB will coordinate and ensure close involvement of Department of Environment, Ministry of Shipping, Bangladesh inland water transport authority (BIWTA) in this project. Also city corporations, municipal corporations, district councils, law enforcement, leaseholder, businessman, owners & worker’s associations of inland water transports along with research institutes will be coordinated and various workshop, seminar, knowledge exchange program will be held to address this issue. Also manufacturer of the products that creates SUP will be ensured in this coordination in order to ensure maximum efficiency of the project.

Program Duration

One Year

Program Budget:

Total Budget: 31.5 Million BDT

Peace in Green

- Awareness & Engagement program on UN SDGs Campaign Overview: Organizing different community base program to aware and engagement program to achieve UN DGS.
- Open discussion and SDG Fair to represent SDG initiatives by different stakeholders and youth.
- SDG Database

Program Duration

Ten Years

Program Budget:

Total Budget: 100 Million BDT

Annual Budget: 10 Million BDT

Covid-19 Emergency Response Program

Year 2020 was a very significant year for all the nations and organizations. Because all the nations were setting commitments toward SDGs, global partnerships were strengthening in more resilient manner than ever and many very important conventions, conferences were supposed to be held on this year from where countries may come to important and strong partnerships toward sustainable development. Also world was coming in a harmony toward climate action, environmental commitment and justice. In a word it was a good year to set the new roadmap of SDGs to be achieved by 2030

But this global catastrophe due to the practical consequences of the Novel Corona-virus outbreak (which WHO declared as Global Pandemic) caused a massive diversion on all the ongoing efforts and set the eradication of the threat the UTMOST PRIORITY.

We (YFB) working with greatest community of youth in Bangladesh. We have successful program on poverty eradication, WASH, Education, Energy & Environment. We are also raising awareness and capacity building program on SDGs in Bangladesh as a member of UN Global compact and special status holder of UN-ECOSOC. Our country is one of the most densely populated and vulnerable country due to climate change and we had continuous programs all over the world unlike any NGO's in the world.

But this outbreak which just started in our country is the ultimate threat to a developing country like us and its effect and consequences will be fatal but inevitable. Thus we halted all our programs and making ourselves prepared for the upcoming challenges to face this outbreak. But we need guidelines, experiences and resources to face this ultimate threat.

Also the real war will be the actions to be taken after the outbreak. Also the end will come with some responsibilities to the developed nations and NGO's to work for the developing countries to help them overcome this catastrophic effect.

Thus Youth Foundation of Bangladesh has initiated "Covid-19 Emergency Response Program" as a part of humanitarian activity and country preparedness and response program.

Program Activities:

- Awareness & Capacity building against the spread of Corona Virus
- Workshop and seminar
- Online and offline awareness campaign
- country preparedness and response program.
- Distributing hand sanitizer and mask.
- Spray disinfectant in locality
- Creating hand wash zone
- Building shelter for homeless people
- Free food and aid distribution
- Research on the aftermath and consequences of the pandemic

Program Duration

Jan-2020 to Cont.

Program Budget:

Total Budget: 20 Million BDT++

Our Campaigns at a glance

World Environment Day

Campaign Overview: Campaign to save Environment & Beat Air pollution

Outcomes: During world environment day published booklets to aware people and distributed through people including prime minister. Program host was Environment & Forest Ministry.

School Art Competition

Campaign Overview: Each year we arrange school art competition where participate more than 500 children.

Outcomes: Students get motivation to explore their extracurricular beside education.

School Materials Giving program

Campaign Overview: Number of six primary school we distribute school materials to the students.

Outcomes: Each year we distribute school materials to more than 1000 students.

My Education My Rights

Campaign Overview: Conceptually we want to raise voice from the side of children who want to go to school and they are aware about their study and they are seeking proper support.

Outcomes: Campaigning nationwide under the theme My Education My Rights.

One Goal for Education

Campaign Overview: One goal one education of all campaign to the mass people.

Outcomes: captured different places to campaign where engaged different people.

Give Me 1(one) Blanket

Campaign Overview: Each year we distribute Blanket at coastal area.

Outcomes: Got benefit poor people during winter

Stand Beside Victims

Campaign Overview: Any disaster we stand beside victims, like flood affected area we distribute relief.

Outcomes: Till now we served 1500 family.

Campaign Overview: Rana Plaza Victim Support

Outcomes: During Rana Plaza collapsed distributed food and worked as rescue team.

22 October, 2012

Dear Mr. Safi ul Alam,

Thank you for writing to the Secretary-General to express your organization's support for the Global Compact's principles in the areas of human rights, labour, environment and anti-corruption. We applaud your leadership in making this decision and welcome your organization's participation in the Global Compact – the world's largest corporate citizenship initiative, with thousands of business participants and other stakeholders from civil society, labour and government located in 120 countries.

At the heart of the Global Compact is a conviction that organizational practices rooted in universal principles help the global marketplace to be more socially and economically inclusive, thus advancing collective goals of international cooperation, peace and development. Indeed, companies and other organizations participating in the Global Compact are working diligently to give concrete meaning to this principle-based change approach.

From the beginning, the Global Compact has considered the active engagement of non-business stakeholders a critical factor for making real progress. Your participation helps to foster this collaborative spirit which is so critical for tackling today's challenges.

The involvement of civil society, labour and the public sector serves many important purposes – bringing different strengths and perspectives to the corporate citizenship agenda. For example, these organizations provide expertise on issues, hold businesses accountable for their commitments, offer incentives and rewards for responsible actions, facilitate implementation of the principles, and serve as excellent partners on a variety of issues. We urge your organization to consider these and other relevant ways to advance the Global Compact. Additionally, you are encouraged to internalize the ten principles within your organization's strategies, policies and operations.

As a voluntary initiative, the Global Compact draws strength from our participants' commitment and actions. To spur implementation and progress, we provide various learning and engagement opportunities for signatories. These include: 60-plus country and regional networks where issues and activities are driven at a local level; practical tools and guidance documents on the principles and other priority issues; and international and local events where multi-stakeholder participants can exchange experiences, partake in learning and problem-solving exercises, engage in dialogue and identify like-minded organizations for partnering projects.

Further details on such activities can be found in the attached guidance document, "After the Signature: A Guide to Engagement in the United Nations Global Compact" and on the Global Compact website (www.unglobalcompact.org).

Mr. Mohammad Safi ul Alam
Chairman
Youth Foundation of Bangladesh
Dhaka

Credibility and accountability are critical factors for advancing the Global Compact. We encourage all organizations engaged in the initiative to communicate with their stakeholders about efforts to promote and implement the initiative's ten principles and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. To start, your organization may wish to inform stakeholders – such as members, employees and partners – and the general public about your decision to support the Global Compact.

Again, we thank you for joining the Global Compact. We are eager to hear your ideas and experiences, and encourage you to share your views with us. We stand ready to support your efforts to advance the initiative's ten universal principles and contribute to a more sustainable and inclusive global economy.

Yours sincerely,

Georg Kell

8 June 2018

Dear NGO Representative,

Subject: Follow-up to the decision of the Economic and Social Council

I am pleased to inform you that the Economic and Social Council (ECOSOC) at its Coordination and management meeting of April 2018 adopted the recommendation of the Committee on Non-Governmental Organizations (NGOs) to grant **Special** consultative status to your organization, **Youth Foundation of Bangladesh**. Please accept the heartfelt congratulations of the NGO Branch.

Consultative status for an organization enables it to actively engage with ECOSOC and its subsidiary bodies, as well as with the United Nations Secretariat, programmes, funds and agencies in a number of ways. In order to better understand this relationship, we take this opportunity to provide some critical information about the **privileges** that consultative status with ECOSOC confers on your organization, as well as the **obligations** that your organization will be required to meet under this relationship. We therefore urge you to take the time to carefully review the information provided below.

A. Privileges and benefits of consultative status

1) ECOSOC Resolution 1996/31

- Arrangements for consultations with NGOs are regulated by ECOSOC resolution 1996/31, adopted by the Council on 25 July 1996. Please review the entire resolution at: <http://csonet.org/content/documents/199631.pdf> for detailed information. It provides information on ways to participate in the work of the Council, including opportunities to organizations such as yours to consult with Member States and the United Nations system at large, based on the nature and scope of work that your organization undertakes. Consultative relationship with NGOs also enables the Council or one of its bodies to seek expert information or advice from organizations with special competence in a subject matter.

Youth Foundation of Bangladesh
 House #426, Road #30, (5th Floor) New DOHS, Mohakhali,
 Dhaka
 Bangladesh

2

- Consultative status allows you to be informed about the provisional agenda of the Economic and Social Council;
- Organizations in general consultative status may request the Secretary-General, through the Committee on Non-Governmental Organizations, to place items of special interest in the provisional agenda of the Council.

2) Attendance at meetings and access to the United Nations

- Your status now entitles you to designate official representatives to the United Nations Headquarters in New York and the United Nations offices in Geneva and Vienna. Your representatives will be able to register for and participate in events, conferences and activities of the United Nations, and organizations in general and special consultative status may designate authorized representatives to sit as observers at public meetings of ECOSOC and its subsidiary bodies, General Assembly, Human Rights Council and other United Nations intergovernmental decision-making bodies. Those on the Roster may have representatives present at such meetings concerned with matters within their field of competence. These arrangements may be supplemented to include other means of participation. To ensure your participation, please use the username and password that have already been assigned to your organization and login to the NGO Branch website at: <http://csonet.org/index.php?menu=14> for more information.
- In order to obtain grounds passes, please use the same login and password information and follow the instructions carefully to designate your representatives for the current calendar year. Please note that representatives nominated by your organization are required to collect their grounds passes in person at designated locations in New York, Geneva and Vienna.
- Your login and password information should also be used to update your organizational profile and contact information at all times so that we can keep you informed of important communications from the United Nations in a timely manner. Please be aware that all communications from the United Nations Secretariat will be sent to the email address that your organization has provided in its organizational profile. It is the responsibility of the NGO to provide and update this information. Therefore, please set up your email address in such a way as to enable your organization to monitor incoming messages from the NGO Branch without interruption. **To this end, you are advised to check and update your organizational profile every six months at: <http://esango.un.org/civilsociety/login.do>** Failure to do so may cause you to miss critical information from our Office pertaining to your consultative status, or any other information that may prove invaluable to your work and/or your participation in the work of the United Nations.

3) Written statements at ECOSOC

- Organizations in general and special consultative status are able to submit written statements relevant to the work of the Council on subjects in which these

3

organizations have a special competence. These statements may be circulated by the Secretary-General of the United Nations to the members of the Council.

- Requirements regarding the submission and circulation of written statements are elaborated in resolution 1996/31. They include, but are not limited to, the following:
 - (a) Written statements shall be submitted in one of the two working languages of the United Nations (English or French);
 - (b) They shall be submitted within the time period indicated prior to the Council's meeting each year in order to allow appropriate consultations between the Secretary-General and the organization before circulation;
 - (c) Written statements from organizations in general consultative status are limited to a maximum of 2,000 words;
 - (d) Written statements from organizations in special consultative status are limited to a maximum of 500 words;
 - (e) The Secretary-General, in consultation with the President of the Council, or the Council or its Committee on Non-Governmental Organizations, may invite organizations on the Roster to submit written statements. Provisions for these submissions, if approved, will be determined accordingly by the Council.

4) Oral presentations at ECOSOC

- Requirements for oral statements include, but are not limited to, the following:
 - (a) The Committee on Non-Governmental Organizations makes recommendations to the Council about which organizations in general and special consultative status should make an oral presentation to the Council, as well as the items on which they should be heard. Such organizations are entitled to make one statement to the Council, subject to the approval of the Council;
 - (b) Whenever the Council discusses the substance of an item proposed by an NGO in general consultative status and included in the agenda of the Council, such an organization shall be entitled to present orally to the Council, as appropriate.

5) Consultations with ECOSOC and its subsidiary bodies

- Commissions and other subsidiary bodies of ECOSOC may consult with NGOs in general and special status; and such consultations may be arranged at the request of the NGO. Organizations on the roster may also be heard by these bodies on the recommendation of the Secretary-General and at the request of such commission or subsidiary body;

4

- A commission of ECOSOC may recommend that an NGO with special competence in a particular field undertake studies or investigations, or prepare papers for the commission;
- NGOs shall be able to consult officers of the appropriate offices of the Secretariat on matters of mutual interest or concern. Such consultation shall be at the request of the NGO or the Secretary-General;
- The Secretary-General may request organizations in general, special and roster status to carry out studies or prepare papers.

6) Use of United Nations facilities

The Secretary-General is authorized to offer United Nations facilities to NGOs in consultative status, including:

- accommodation for conferences or smaller meetings related to the work of ECOSOC;
- appropriate seating arrangements and facilities for obtaining documents during public meetings of the General Assembly that deal with matters in the economic and social and related fields;
- arrangement of informal discussions on matters of special interest to groups or organizations;
- access to United Nations press documentation services;
- prompt and efficient distribution of documents related to ECOSOC and its subsidiary bodies as the Secretary-General deems appropriate;
- use of United Nations libraries.

B. Responsibilities and obligations of NGOs in consultative status

1) Quadrennial reports

- Organizations in general and special consultative status are required to submit a report on the activities of their organizations in support of the work of ECOSOC and the United Nations **once every four years**, known as quadrennial reports, as per ECOSOC resolution 1996/31. This requirement is reinforced through ECOSOC resolution 2008/4 on "Measures to improve the quadrennial reporting procedures." In keeping with these requirements, **your organization will be required to submit its first report for the 2018-2021 period by no later than 1 June 2022** for review by the ECOSOC Committee on NGOs. Please download and carefully follow the guidelines for the submission of these reports on the NGO Branch website at: <http://csonet.org/?menu=85>

5

- In the intervening periods between the submission of quadrennial reports, organizations are advised to keep detailed records of participation in United Nations meetings and events, as well as cooperation with United Nations funds and agencies for inclusion in subsequent reports.

2) Suspension and withdrawal of consultative status

- As per resolution 2008/4, if an NGO fails to submit its quadrennial report by the due date of 1 June, following three reminders after the initial due date, the ECOSOC Committee on NGOs shall recommend immediate suspension of consultative status for the organization the following year for a period of one year.
- According to the same ECOSOC resolution 2008/4, NGOs whose consultative status has been suspended due to an outstanding quadrennial report will be required to submit the report within the period of suspension in order for the Committee on NGOs to consider, take note of the report and recommend reinstatement of consultative status.
- If, however, an NGO fails to submit the report within the stipulated period, the ECOSOC Committee on NGOs shall recommend to the Council the immediate withdrawal of consultative status. Once consultative status has been withdrawn by the Council, the NGO will no longer be entitled to the benefits and privileges of the relationship.
- The organization concerned will be entitled to re-apply for consultative status only after a period of three years, following the effective date of withdrawal of status.
- Additionally, consultative status of NGOs can be suspended for up to three years or withdrawn by the decision of the Economic and Social Council on the recommendation of its Committee on Non- Governmental Organizations in the following cases:
 - (a) If an organization, either directly or through its affiliates or representatives acting on its behalf, clearly abuses its status by engaging in a pattern of acts contrary to the purposes and principles of the Charter of the United Nations including unsubstantiated or politically motivated acts against Member States of the United Nations incompatible with those purposes and principles;
 - (b) If there exists substantiated evidence of influence from proceeds resulting from internationally recognized criminal activities such as the illicit drugs trade, money-laundering or the illegal arms trade;
 - (c) If, within the preceding three years, an organization did not make any positive or effective contribution to the work of the United Nations and, in particular, of the Council or its commissions or other subsidiary organs.

6

Strict prohibitions against misrepresentation of consultative status

- NGOs in consultative status are **NOT** considered part of the United Nations system. As such, they are not representatives or staff of the United Nations, nor are they authorized to enter into business arrangements on behalf of the United Nations, or misuse the United Nations' name or logo for endorsement of an organization's activities in any way. Furthermore, consultative status does not entitle NGOs any privileges such as tax exemptions, diplomatic passports, travel privileges, etc.
- NGOs in consultative status are forbidden to use the United Nations logo on their stationery, business cards, websites, meeting banners, cars, office buildings, etc. Misrepresentation of consultative relationship can result in adverse consequences for your organization, including suspension or withdrawal of status.
- If the organization wishes to display consultative status on its letterhead, the following statement can be included below the name of the organization: *"Organization in (Category of status) with the Economic and Social Council since (year status granted).*

Please feel free to contact us if you have any questions. We welcome the opportunity to work with you and will be happy to facilitate your participation in the work of the United Nations, in particular ECOSOC and its subsidiary bodies, in the future.

Yours sincerely,
