

## **HWPL Statement on Human Rights Crisis in Myanmar**

We, Heavenly Culture, World Peace, Restoration of Light (HWPL), express deep concern over the situation in Myanmar, which has caused casualties and posed grave threats to human rights. The recent efforts of the Myanmar military to suppress nonviolent protests have led to dozens of deaths and hundreds of injuries. The number is still continuing to increase. Human life must not be disregarded in any circumstances. No conflict of interest can justify violence against civilians, and no interest of any group can prevail over human life. Using violence to suppress peaceful protests and silence voices for change is contrary to the will of the people of Myanmar.

Authorities should respect people's human rights and freedom of expression. We call on all relevant parties in Myanmar to express regret at the ongoing situation and engage in dialogue to seek a peaceful resolution. We are confident that the international community will support this effort, which will contribute to security and peace not only in Southeast Asia but also in other parts of the world. We, HWPL, along with our members all over the globe are deeply concerned about the harm caused to civilians by the escalating violence in Myanmar. International attention is focused on Myanmar, and history will remember these moments. The situation should be resolved in a just and peaceful way also for the sake of the growing generation, who will learn from this crisis to build their future. We call on all parties to refrain from repression or force and instead settle the crisis through dialogue and consensus based on mutual respect and understanding. And we call on the United Nations to take active measures so that the human rights and safety of the people of Myanmar may be protected. We ask the global family of peace to issue statements urging authorities and civilians in Myanmar to pursue dialogue and seek a peaceful solution in order to restore peace to the country. In one voice,

HWPL and all our members around the world express hope that the ongoing crisis in Myanmar will be resolved peacefully through dialogue, not violence, and

In solidarity with, HWPL & as an institutional member of HWPL Participatory Human Rights Advancement Society has joined the call of HWPL on March, 2021

and send an organizational statement on Myanmar ongoing situation with HWPL.

## **PEACEFUL RESOLUTION IS NEED FOR MYANMAR ISSUES**

Peace cannot be kept by force; it can only be achieved by  
understanding. - Albert Einstein

Peace cannot be possible without mediations, arbitrations and negotiations Myanmar is a multi-ethnic and multi religious country. As a human rights worker, I strongly support the civil disobedience movement of Myanmar people for restoration of peace and establishing human rights.

I want justice for the people of Myanmar. I urge the Myanmar Armed Forces to cease violence and work for the restoration of peace and establishment of human rights for the development of peace loving Innocent people of Myanmar.

Recently, Myanmar has drawn world attention. Myanmar rulers must engage in dialogue for restoration of peace and establishing human rights for the peace loving Innocent people of Myanmar. In this situation dialogue is urgently necessary.

Without dialogue, arbitration, mediations and negotiations we can't reach for a peaceful solution. In this regard, the United Nations can play a vital role,

international organization, Such as, Heavenly Culture, World Peace, Restoration of Light (HWPL) and world leaders can help to find a peaceful resolution.
