To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to our participation in the UN Global Compact SDG Ambition Accelerator 2021-2022. We have engaged in the accelerator program in order to enhance our delivery of measurable results toward the Sustainable Development Goals. Through this process, we plan to evaluate the areas for greatest impact within our new business model and set corporate goals on the priority areas identified and aligned with the SDG Ambition Benchmarks.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by the 4th of February 2022 at the latest.

Sincerely yours,
