To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to prevailing circumstances with staff who have been ill, we have not had time to prepare the annual reports that we usually do in terms of climate reporting and this also applies to the annual COP report. As things stand now, we hope to be able to complete these reports in the near future.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 20th of february 2022 at the latest.

Sincerely yours,
