Poland

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to an extensive data collection process. As the year of 2021 has been busy with numerous projects and activities, we would like to strive to deliver the most comprehensive message to our stakeholders. Simultaneously we are working on our integrated report which will be subject to external audit and we hope that all these activities amount to more transparent and cohesive communication on our part. We are still very much in line with the UN Global Compact values and look forward to publishing our COP soon.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 4th March 2022 at the latest.

Sincerely yours,

Olgierd Cieślak
CEO
