Communication on Progress 2022

Executive Statement

To our stakeholders:

I am pleased to confirm that ampUz reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-Corruption. In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations.

We would also like to extend our gratitude as a member of the United Arab of Emirates (UAE) board, where we are headquartered, to support the advocacy and growth of corporate sustainability. In this position we have been able to contribute to the progress made by the UAE's business community, specifically in developing the Diversity & Inclusion Taskforce.

We also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Ayla Bajwa
Founder & CEO
