January 25, 2022

To our stakeholders:

We recognise that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP. This is due to Edge Environment being in the process of building an impact framework to measure our impact and be able to report on it credibly in our report. The impact framework will need to be rolled out across our entire business and suite of projects and will form Edge's first Impact Report, due to be published in July 2022. We will integrate the UN Global Compact requirements into the upcoming impact report. By postponing, we will be able to better communicate on our progress and support for the UN Global Compact.

We hereby ask for a 90-day extension period (until May 10th) to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by May 10th at the latest.

Kind regards,

Hrefna Gylfadóttir
