To our stakeholders and Global Compact

Dansk Industri  
Confederation of Danish Industry

The Confederation of Danish Industry attaches great importance to the principles of the Global Compact and the Sustainable Development Goals. We are currently preparing our Communication on Engagement for our organisation, which is an important priority for us as we are engaged in a broad variety of activities related to sustainability within our organisation and with our member companies. Due to unforeseen circumstances and tasks, we would appreciate more time to finish the report and therefore we kindly ask for an extension period in order to present a COE comprising the variety of the efforts made by the Confederation of Danish Industry since our latest report was published in 2020. The COE will be uploaded on the UN Global Compact website no later than by June 1<sup>st</sup> 2022.

Yours Sincerely

Anna Nilsson
