

UN GLOBAL COMPACT 2021

Certified

Corporation

STATEMENT

FORSTER HAS BEEN A SIGNATORY TO THE UNITED NATIONS GLOBAL COMPACT SINCE 2007 AND WE REMAIN FULLY COMMITTED TO SUPPORTING AND UPHOLDING ALL OF THE 10 PRINCIPLES.

We recognise that living up to our commitment has to be seen as a process of continuous improvement and are pleased to be able to show significant steps made since we reported last year.

In September 2015 we became a founding UK B Corporation which squares with our core intent to help deliver material positive social and environmental change, while at the same time offering the opportunity to collaborate with, and learn from, like-minded for-profit businesses on a growing global platform. We were re-accredited this year with an improved score, moving from 102.6 to 110.2

In January 2020 we released our first Climate Positive Plan, a roadmap for us as a business to become climate positive. Our three-part plan focuses on ourselves, our clients and our community. Each of these include specific areas that we must address to become climate positive.

We recognise that as a service provider our contribution goes beyond our footprint. We are taking direct action over the things we can control and seeking to inspire change more broadly, publishing our plan for others to see and use where helpful.

We also want to learn and welcome the opportunity to talk and share. In January 2021 we released an update to our Climate Positive Plan; our ambitions have grown and we are taking new action to ensure adaptation and mitigation measures support social justice and drive equality.

We intend to continue to live our values of Curious Minds, Collaborative Attitudes and Pioneering Actions and look forward to updating you on the progress we make.

Amanda Powell-Smith
CEO

UN GLOBAL COMPACT 2021

HUMAN RIGHTS

PRINCIPLE 1: Businesses should support and respect the protection of internationally proclaimed human rights

PRINCIPLE 2: Make sure that they are not complicit in human rights abuses

OVERVIEW

As a long term signatory of UNGC we take our commitment towards human rights very seriously and only work with suppliers and clients who share our values. We strive to continually improve our working environment for our team, ensuring they have the best tools available to do their job efficiently and effectively to affect social change. This has been particularly important over the Covid-19 Pandemic with enforced working from home.

EVIDENCE

A taskforce was set up to increase Diversity, Equity and Inclusion within our business and through our suppliers and client work, leading to development of revised company policies

We have a zero tolerance policy on human rights abuse. Our supplier screening form is sent to all suppliers to ensure commitment to modern slavery legislation.

All our team were supported during the Covid-19 pandemic with equipment provided to ensure they could work safely and comfortably from home as well as being offered support around mental health and wellbeing. Everyone was retained on full-salary throughout the period with additional support commissioned to cover increased workloads.

All our team have 24 hour access to an Employee Assistance Programme including access to mental health support. Increased support was provided by the company when required for individuals who were particularly affected by Covid-19.

PRIORITIES FOR ONGOING ACTION

Our Diversity, Equality and Inclusion (DEI) policy is supported by clear targets that are measured ourselves and through our B Corp assessments. New information is being gathered in updated annual team research to create a benchmark of our internal diversity and track progress.

All suppliers will continue be screened before being commissioned, with updates as our screening form is changed or every three years

Benefits of flexible working are being reflected in updated policies.

Team wellbeing is at the forefront of our approach as a business and we are investing in additional mental health training for the team.

LABOUR

PRINCIPLE 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining

PRINCIPLE 4: The elimination of all forms of forced and compulsory labour

PRINCIPLE 5: The effective abolition of child labour

PRINCIPLE 6: The elimination of discrimination in respect of employment and occupation

OVERVIEW

As a founding B Corp in the UK we aim to demonstrate best practice when looking after our colleagues and suppliers. We have been members of the Living Wage campaign since 2014 and encourage suppliers to sign up to the Living Wage certification and pay their staff accordingly.

EVIDENCE

We continued to monitor our suppliers on their commitment to eliminate forced labour and encourage fair pay by committing to a Living Wage. We achieved a 6% increase on the previous year, with 33% are now certified Living Wage employers.

There was a 400% increase in training spend for the year, with a focus on one to one coaching to reflect home-working requirements.

All our team are allocated up to 20 paid hours to volunteer for charities each year, and causes supported including climate change, just transition, homelessness & gender equality.

We responded to the challenge of working from home by setting up programmes to encourage and enable the team to get outside and exercise at any time of the day. This had significant benefits over the winter months, raising funds for a local homelessness charity with the team covering over 2,000 miles outdoors.

We updated our team handbook and policies including our recruitment process to reduce the possibility of discrimination and respond to our desire for increased DEI.

PRIORITIES FOR ONGOING ACTION

Rolling schedule of team meetings and input into company strategy, including board meetings.

Increase the proportion of our suppliers with Living Wage commitments to 50%.

Continue to invest in our team with training and development opportunities.

Increase team participation in volunteering to 100%.

Maintain a focus on team wellbeing, enabling access to the outdoors through flexible working policies.

Monitor improvements to DEI metrics.

UN GLOBAL COMPACT 2021

ENVIRONMENT

PRINCIPLE 7: Businesses should support a precautionary approach to environmental challenges

PRINCIPLE 8: Undertake initiatives to promote greater environmental responsibility

PRINCIPLE 9: Encourage the development and diffusion of environmentally friendly technologies

OVERVIEW

We were one of the first media agencies in the UK to declare a climate emergency and we publicly report against our impacts and emissions across GHG scopes 1, 2 & 3. We have Science Based Targets to reduce our footprint and actively inspire others to do the same.

EVIDENCE

We reduced our CO2 emissions by 5.7 tonnes by reducing office energy use, waste and travel.

We are committed to only purchasing vegan foodstuffs for the office to help reduce our carbon footprint.

We tracked our clients' commitment to climate change and established that 37% have made emission reduction targets publicly available.

We tracked our suppliers commitment to climate change and established that 57% have made net zero targets covering GHG emission scopes 1, 2 & 3.

We encouraged sustainable travel to the office for the team by offering vouchers or winter sports kit which was taken up by 96% of colleagues, and updating our sustainable travel policy to cover client travel to meetings if they travel by bike or on foot.

We completed our three year B Corp assessment increasing our score from 102.6 to 110.2 points.

We tracked our GHG scope 1, 2 & 3 emissions including our banking and pensions scheme, home working and commuter travel.

We trained everyone in our team to become climate advocates and inspire others to make changes to their actions.

PRIORITIES FOR ONGOING ACTION

Increase the proportion of our clients who are committed to reducing their emissions to 100% by April 2023.

Increase the proportion of suppliers with net zero targets to 100% by April 2022.

Seek continual improvements across the board and increase our B Corp score.

Update our banking facilities to be aligned to our Climate Positive Plan and ensure our company pension is sustainable.

ANTI-CORRUPTION

PRINCIPLE 10: Businesses should work against corruption in all its forms, including extortion and bribery

OVERVIEW

We are committed to the fight against corruption and believe it is core to building a fair business environment to encourage access to free markets.

EVIDENCE

We have reviewed our whistle blowing policy and there have been no reported incidents over the last year, with the company maintaining a zero tolerance position on corruption in all its forms.

PRIORITIES FOR ONGOING ACTION

Continue to inform and engage our team in what to look for and how to report it, ensuring we speak out about any corruption identified.

CREATING POSITIVE CHANGE

FORSTER COMMUNICATIONS WAS FOUNDED IN 1996 WITH ONE PURPOSE – TO USE THE POWER OF COMMUNICATIONS TO PROTECT AND IMPROVE LIVES.

25 years later and our purpose is still the same. Everything we do, inside our company as well as with our clients and partners, is designed to add positive value for people and the planet.

We believe that, as specialist sustainability communicators, we can't ask our clients to be brave unless we are doing the same. It means more than walking the talk, it's about living and breathing it every day.

In a year of unprecedented challenges, it's what drove our response to COVID-19, as we helped NHS Charities Together and food businesses reach out to those in need. And it's why we're committed to becoming a climate positive business, and taking our clients on that journey too, through our Climate Positive Plan.

As a founding UK B Corp, we're independently assessed on how we perform as a sustainable business. We measure and report on the difference we make – through our own actions, our work with clients, and supporting and influencing our broader community.

This report details our impact for 2020-21 across three priority areas:

1. Tackling the climate emergency
2. Addressing inequality and building diversity
3. Promoting health and wellbeing

INDEPENDENT ASSESSMENT

We have always been transparent about our performance, using third party accreditation to measure and benchmark progress, including:

- [B Corp](#)
- [B Impact Assessment](#)
- [Green Element](#)
- [Eshcon](#)
- [ISO 14001](#)
- [Living Wage Campaign](#)

© NHS CT

This extraordinary year – full of shock and sadness for so many – reiterated the role of business as a critical, connected part of society. From global policies to individual actions, what we do and how we do it matters. It's been incredible to see colleagues, clients and the wider community pull together, working faster and harder than ever before. We've shown what's possible and are now using these insights, commitment and optimism to maintain the pace of change.

**Amanda Powell-Smith, CEO,
Forster Communications**

MEETING CHALLENGES HEAD ON

IN A YEAR LIKE NO OTHER, OUR DRIVE TO HELP, AS THE WORLD FACED THE SYSTEM SHOCK OF COVID-19, PUT US AT THE HEART OF THE EMERGENCY RESPONSE.

Our communications helped high-profile fundraising campaigns, including **NHS Charities Together**, reach their targets.

We increased our **pro bono support** for smaller charities, recognising the strain on their funding and resources.

We continued to address the **climate emergency** and received commitments from the majority of our suppliers to cut emissions or achieve net zero.

We produced our second **Client Disclosure Report** and reduced our income from carbon critical industries from 9.5% to 1.5%.

We were **reaccredited by B Corp** and delighted to increase our score by 8 points to 110.2. This is the highest score for PR agencies in the UK.

CONSULTANCY OF THE YEAR

And we were
proud to win the
edie Sustainability
**Consultancy of
the Year award** for
the second time.

THE YEAR IN NUMBERS

70% decrease in carbon emissions from our offices

57% of our suppliers committed to net zero
or setting an emissions reduction target

714 hours of pro-bono support for smaller
charities, up 224% on 2019-20

6% increase in our suppliers who are
members of the Living Wage Campaign

400% increase in investment in employee learning
and development including one-to-one coaching

2,000 miles of exercise by our team as part of Better by Miles,
raising money for Whitechapel Mission

TAKING CLIMATE ACTION

OURSELVES

OUR CLIMATE POSITIVE PLAN COMMITS US TO REDUCE EMISSIONS, NOT ONLY IN OUR BUSINESS BUT THROUGHOUT OUR VALUE CHAIN.

Net zero commitments

We set a target that by March 2022, all our suppliers would match our commitment to achieving net zero by 2030. Although COVID-19 disruption delayed this work, by the end of the year, 57% had responded positively with 38% already committed to net zero.

Reducing emissions

We achieved a reduction of 5.7 tonnes of CO₂ from in-office energy, waste and travel – a net reduction of almost 2.5 tonnes when emissions from home working are accounted for.

Measuring indirect emissions

We measured our indirect (Scope 3) emissions for the first time, and identified pensions, banking and IT as our major contributors. We will prioritise action to address this in the year ahead, working with B Corp and the Make My Money Matter campaign.

Offsetting

We offset all of our Scope 2 and 3 emissions through our carbon offsetting partner – ClimateCare. This supports renewable energy projects in India and clean cookstoves in Ghana and Bangladesh, reducing the emissions produced from burning fossil fuels.

2.5 TONNES
NET REDUCTION IN CO₂
EMISSIONS 2020-21

At Forster, initiatives like our Climate Positive Plan are made fun and run through everything that we do, helping us all to live better, healthier and safer lives and protect the planet. We're now happily a vegan office to reduce our carbon impact and our pedal points scheme means that the majority of us cycle. Forster also helped us all switch to renewable energy suppliers at home which has been really important this year.

Olivia Martin, Senior Consultant, Forster Communications

TAKING CLIMATE ACTION

OUR CLIENTS

OUR TARGET IS THAT BY APRIL 2023, ALL OUR CLIENTS WILL HAVE PUBLICLY COMMITTED TO REDUCE THEIR CARBON FOOTPRINT.

Reducing emissions

We tracked our clients' commitments to cutting emissions, finding 37% have net zero targets: 71% of our business clients and 15% of our not-for-profit clients. These findings will help us target support for clients who want to deepen their climate commitments in the year ahead.

Changing attitudes and behaviour

We also helped deliver climate action with our clients through communications programmes, including:

Selfridges, Project Earth

Supporting the launch of Selfridge's Project Earth, which is changing the conversation about how people can shop sustainably, stimulating widespread discussion with media reach of 4.2 billion people (to date).

Energy Saving Trust

Providing specialist communications to position the Energy Saving Trust as a leading voice in the transition to net zero and promoting energy efficiency. This has helped them to reach 1.3 million households with 381,000 taking action as a result.

ReLondon circular economy

Working with ReLondon to increase understanding of the circular economy among businesses and policymakers, to help reduce waste and increase reuse.

Forster played an important role in helping us to launch our major sustainability initiative, Project Earth, to a global audience. Working in collaboration with the Selfridges team, their knowledge and experience paired with a results-driven approach helped us to deliver a truly impactful campaign that we are extremely proud of.

Laura Watt, Senior PR & Experience Manager, Selfridges

71%

OF OUR BUSINESS
CLIENTS HAVE
NET ZERO TARGETS

OUR COMMUNITY

OUR CLIMATE POSITIVE PLAN TARGET IS TO DRIVE ACTION WITH OUR TEAM, PARTNERS AND THOSE AROUND US.

Developing climate advocates

We provided all our team with tailored training to build their confidence in climate advocacy, helping them to speak up and drive action.

Deepening our partnerships

Over the next year, we will work closely with not-for-profit leaders including ACEVO, CharityComms and Third Sector to drive climate action across the sector.

ACTION FOR EQUALITY AND DIVERSITY

OURSELVES

IN A YEAR WHICH SAW THE UNEQUAL IMPACT OF THE PANDEMIC ON PEOPLE IN THE UK, AND THE GLOBAL BLACK LIVES MATTER MOVEMENT, WE RECOGNISED WE NEEDED TO DO MORE.

Building diversity and inclusion

We created a new Diversity and Inclusion Plan which is currently being assessed by industry experts to ensure it reflects best practice. We also changed our recruitment practice, moving from blind CVs to no CVs with three questions for initial selection. We expect these changes to impact the make-up of our team in the coming years.

Paying a living wage

We have been members of the Living Wage Campaign since 2014, paying all interns the London Living Wage. We encourage all our suppliers to join and our latest tracking shows that 33% are now members, a 6% increase from last year.

Achieving gender balance

We are majority owned by women with a female CEO. However the majority of directors are men. This skews average pay and means we have an overall gender pay gap of 34.6%. We are working to achieve a better balance through promotion of talented female staff into senior roles.

Providing work experience

Our work with the Social Mobility Foundation to provide work placements had to be put on hold due to the pandemic. We are looking at the most effective way to increase access into the profession as part of our Diversity and Inclusion Plan.

33%

OF OUR SUPPLIERS
ARE MEMBERS OF
THE LIVING WAGE
CAMPAIGN

“

One of the greatest pleasures of being an employer is being able to reward hard work. We believe that ensuring we pay people well for the work they do is one of the core components of maintaining a healthy team over time. The Living Wage framework helps us ensure we are doing that fairly for people who are most vulnerable to exploitation.

David Schluter, MD, Fluid IT (a fellow B Corp and Forster supplier)

THE
DOM

ACTION FOR EQUALITY AND DIVERSITY

OUR CLIENTS

WE WORKED COLLABORATIVELY WITH OUR CLIENTS TO REDUCE THE IMPACT OF INEQUALITY THROUGH THE PANDEMIC AND EXTEND OPPORTUNITY IN DISADVANTAGED COMMUNITIES.

Neighbourly pandemic response

Working with Neighbourly and their national partners including M&S, Aldi, Lidl and Danone, we raised awareness of emergency pandemic support available. We also used our cross-industry networks to increase involvement, helping local causes in the Neighbourly network to support over 4 million vulnerable people in the UK.

Penguin: It starts with a book

We encouraged Penguin Random House to speak out about the lack of racial diversity in the UK curriculum and helped launch their #ItStartsWithABook campaign to get books into the hands of disadvantaged communities during the pandemic. This work secured over 200 pieces of media coverage and helped to double applications to its WriteNow programme, supporting a wide range of aspiring authors.

4M PEOPLE

HELPED BY NEIGHBOURLY
DURING THE PANDEMIC

“

Forster has played a key role amplifying Neighbourly's work during the pandemic, from highlighting the importance of local causes to tackling food waste alongside national retailers. They're genuine partners, quick to spot new opportunities and consistently adding real value to our team.

Steve Butterworth, CEO, Neighbourly

OUR COMMUNITY

Supporting isolated and vulnerable people

We developed the Community Action Response initiative for Eden Project Communities, helping to generate support for isolated and vulnerable people during the pandemic. This has been taken up across the country and is now a collaboration of 35 community-focused charities.

Drawing on our networks

In addition to newsletters, blogs and opinion pieces through our channels and sustainability media, we actively promote equality and diversity through our industry memberships and networks, including sitting on the B Corp UK policy group.

ACTION TO SUPPORT HEALTH AND WELLBEING

OURSELVES

WITH THE PANDEMIC RIPPING UP THE RULE BOOK ON HOW WE WORK, WE HAD TO CHANGE OUR APPROACH TO PROTECT THE HEALTH AND MENTAL WELLBEING OF OUR PEOPLE.

Supporting colleagues through lockdown

- We bought and delivered desks, chairs, lamps and big computer screens to ensure our team could work from home comfortably.
- As well as twice-weekly virtual team catch-ups, we did one-to-one check-in calls to make sure people felt supported and part of a team.
- We added access to a personal coach to our Employee Assistance Programme to offer tailored individual support. More than 70 hours of coaching has been delivered so far.

OUR CLIENTS

OUR CLIENTS WERE AT THE FOREFRONT OF THE PANDEMIC RESPONSE. WE HELPED THEM TARGET CAMPAIGNS AND GAIN TRACTION.

NHS Charities Together appeal

We managed communications for NHS Charities Together's record-breaking appeal, playing a key role in raising over £150 million to support frontline workers, volunteers and patients. We continue to support them, for example raising awareness of the impact of the pandemic on healthcare professionals.

RVS and NHS Volunteer Responders

We pivoted our planned services to help RVS communicate around the NHS Volunteer Responders programme. They have already completed more than 1.5m tasks in their community.

The world's media knocked on the door when our appeal took off at the start of the pandemic and we were a team of four adjusting to working remotely. Forster came on board at 24 hours' notice and took on all of our communications, which was phenomenal. They were instrumental in helping us raise over £150m, getting our message out to every corner of the UK and beyond and turning NHS Charities Together into a household name.

Ellie Orton, Chief Executive, NHS Charities Together

OUR COMMUNITY

Combining fundraising and wellbeing

Better by Miles combined our goals of colleague wellbeing and community support. Each mile completed by a team member unlocked a donation for the Whitechapel Mission, a charity supporting homeless and marginalised people living near our office. Collectively the team have walked, run or cycled 2000 miles.

BUILDING A BETTER FUTURE FOR ALL

THE YEAR OF THE PANDEMIC SHOWED HOW CHALLENGING LIFE CAN BE – BUT ALSO WHAT CAN BE ACHIEVED IF EVERYONE WORKS TOGETHER. AS WE MOVE INTO A POST-COVID-19 WORLD, WE ARE MORE COMMITTED THAN EVER TO LEAD AND INSPIRE CHANGE.

We will continue to work towards the targets in our [Climate Positive Plan](#) and do more to help reduce inequality and promote diversity and inclusion.

And we'll use the power of communications to achieve a wider influence through our work and our industry networks, collaborating with our clients and communities to make a positive difference at every opportunity.

If you are interested in driving change or would like more information on what we're doing, please get in touch.

PUBLISHING OUR CLIENT
DISCLOSURE REPORT IS
CORE TO OUR CLIMATE
POSITIVE PLAN AND LIVING
OUR PURPOSE OF USING
COMMUNICATIONS TO
PROTECT AND IMPROVE LIVES.

As we work with clients and the wider sustainability and communications communities, it is critical we continue to take pioneering actions – using ourselves as a test bed to see what works and helping others to accelerate change.

We are happy to share and welcome discussion. We urge more communications agencies to quickly commit to climate action and publish client disclosure reports as a sign of genuine intent.

For further information, please contact us on info@forster.co.uk.

Thank you.
