H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to ratify Techint Engineering & Construction's support to the Ten Principles of the United Nations Global Compact, related to Human Rights, Labour Rights, Environmental Protection and Anticorruption.

With this communication, we express our support and disseminate those principles in our area of influence. We commit ourselves to make the UN Global Compact and its principles part of the business strategy, culture and day-to-day operations of our company, to engage ourselves in collaborative projects which foster the advancement of the Sustainable Development Goals, as well as to apply all the efforts to announce and share this commitment to our employees, partners, clients and general public.

Techint Engineering and Construction has included its commitment to the ten principles of the United Nations Global Compact in its 2020 Sustainability Report, published in 2021, where It also describes the actions we are developing in this field.

We recognize that a key requirement for participation in the UN Global Compact is the submittal of the Communication on Progress (COP), which describes the efforts to implement the Ten Principles. We support public accountability and information transparency, and therefore commit to report on progress within these two years of joining the UN Global Compact, and annually thereafter, according to the UN Global Compact COP policy.

Sincerely yours,

Carlos Bacher
CEO
Techint Engineering & Construction
