10 March 2022

Dear Secretary General,

As Senior Partner of Generation Investment Management (“Generation”), I would like to express our continued support for the United Nations’ Global Compact. Enclosed you will find a description of our firm and the actions that we have taken over the past year to support the Principles through our primary business activity, which is investment management. Given our focus on long-term sustainable investing, we integrate the Principles of the Global Compact into the core of our investment strategy. Through our advocacy work, we encourage other asset owners and managers to do the same.

David Blood
