To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

In the last two years 2020/2021, in order to support the values of the Global Compact with increasingly concrete actions, we have organized internal activities. These have not yet seen the full realization, given the impossibility of being carried out face to face, essential for achieving the hypothesized impact. In this regard, we are late in creating, sharing and publishing our COP report.

We hereby ask for an extension period, with respect to the deadline of April 2, 2022, in order to be able to publish a COP report describing the efforts and progress of our company.

Kind regards,
