

IMA WORLD HEALTH

In concert with Corus International

March 10, 2022

H.E. António Guterres
Secretary-General, United Nations
New York, NY 10017 USA

Dear Mr. Secretary General,

I am pleased to reaffirm IMA World Health's ongoing commitment to upholding the ten principles of the UN Global Compact in the strategy, culture and day-to-day operations of our organization and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

As a value-driven organization working to eliminate poverty and suffering worldwide, people are at the center of IMA World Health. We whole-heartedly share the UN Global Compact's principles in regards to human rights, labor, environment and anti-corruption and submit this communication of engagement to detail the actions we are taking to enact it in our organization's operations.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- Partner with organizations and communities serving the most vulnerable, in order to end poverty, injustice and human suffering.
- Engage UN Global Compact business participants as they implement and report on their sustainability efforts.
- Connect with UN Global Compact local networks for synergy on our shared efforts to meet the principles.
- Support issue platforms and workstreams that best fit with our scope of work, such as gender equality, climate change and food and agriculture.

We support public accountability and transparency and commit to report again on our progress in two years according to the Global Compact Communication on Engagement policy.

Sincerely,

Daniel Speckhard
President and Chief Executive Officer
Corus International
