21st March, 2022.

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to personnel availability. Two key employees from the Sustainability Department who are trained and responsible for reporting and disclosure are currently not at post due to health issues and the other has resigned. We are making a substitute by building capacity for a new team, with provision to respond more adequately to such happenings in the future.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 20th June, 2022 at the latest.

Yours sincerely,

*Prosper Burnson*
