Letter of commitment to the United Nations Global Compact

Dear Mr. Secretary-General,

I am pleased to confirm Fastpartner AB's continued support of the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Fastpartner makes a clear statement of this commitment to our stakeholders and the general public.

Fastpartner works continuously to reduce our climate and environmental impact, primarily by making our properties more energy efficient, choosing more environmentally friendly fuels, requesting greener electricity, district heating and district cooling from our energy suppliers and installing solar cells on our properties. Regarding social sustainability Fastpartner has mainly chosen to make efforts locally in the areas in which we operate, for example by supporting the non-profit organization Fryshuset and their youth activities, hiring local young people for summer jobs and engaging in local events.

We oblige to the requirement of an annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. By doing this Fastpartner wishes to reinforce its determination to continuously improve its ability to meet the expectations of its employees, clients and shareholders, the stakeholders of a vision for a better tomorrow.

Sincerely yours,

Sven-Olof Johansson
CEO, Fastpartner AB
