## POSITIVES

This year activities were limited to virtual platform, there has been lot of initiatives has come from different faculties. Overall there has been a very positive response from the faculty of SUC.in achieving the objectives of community service.

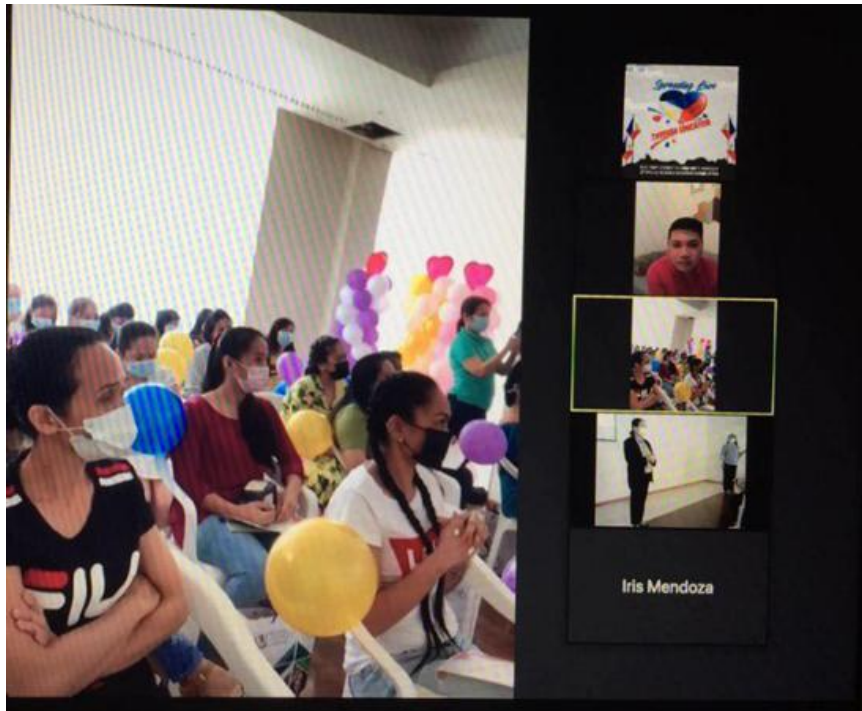

1. Awareness programs like Breast cancer awareness, lung s and prostate cancer awareness, friends of kidney and UN world water day awareness gathered on an average more than 90 % feedback.
2. This time the Sharjah sustainability award organized by Emirates Protection Area Authority. Our student team in smart application has done excellent and look forward to the award.
3. Lot of collaboration is seen in the faculty and staff of SUC to contribute to the community engagement which is evident by the proposals which has gone through the process of approval. Our faculties have done lot of training programs from both SoIT and SoB.
4. For the Year-Round Health Campaign (Cervical & Ovarian Cancer Awareness), there was proper planning, coordination (both internal & external) and approval.
5. Future Career Workshop to many schools are successful. The team work of professors doing the workshop are highly commendable.
