## **COMMUNICATION ON ENGAGEMENT (COE)**

Period Covered: June 2020 - March 1, 2021 - March 2022

*Civiliti Corp. is a 501C3, USA non-profit and tax-exempt organization*

Statement of Continued Support:

March 27, 2022

With great honor Civiliti wholeheartedly reaffirms its commitment to the United Nations Global Compact and enhancing utilization and awareness of its Ten Principles with particular emphasis for Human Rights and Environmental Sustainability globally. This emphasis is a cornerstone of the educational, informational and knowledge development Mission of Civiliti.

In this COE we describe the activities of Civiliti in support of the United Nations Global Compact and Civiliti fundamental programs which in and of themselves, support directly the Global Compact Principles and Goals. We strive to create and aggregate credible and universal knowledge and dissemination of same, and pledge to continue that effort in earnest over the coming years.

Respectfully,

Dick Clark  
Founder and CEO  
Civiliti Corporation

Activities:

Our Civiliti Vision is as a global community with shared values of respect, kindness, and compassion, [i.e. *civility*] understanding our collective rights and responsibilities to and with each other and the environment. At its core, the Global Compact Principles reflect the same values and goals.

While Civiliti is a young non-profit, much is being accomplished and significant support to the Global Compact, its Principles and Goals. Civiliti's "fundamental reason for being" compliments the core of the Global Compact and is devoted to knowledge development globally on mutual respect, human rights, and environmental sustainability.

Civiliti makes the Global Compact accessible on our websites with a clickable availability on the logo. We also promote same with website pages devoted to the actual Ten Principles and the actual SDG Goals and will continue to do so in the future, along with the contact access at the end of these knowledge sections.

## COMMUNICATION ON ENGAGEMENT [COE]

Civiliti is still developing the most inclusive and robust online Directory – with “one click” access to “all things human rights” and is and will be promoting The Global Compact and its Principles within. Civiliti utilizes three Knowledge Centers. The Environmental Knowledge Center, the Human Rights Knowledge Center, and the EcoArt Academy to support learning and as such, support the Global Compact Principles and Goals. There is no more relevant time for the UN Principles development than now.

The Civiliti Knowledge Centers on Human Rights, Environmental Sustainability and the EcoArt Academy include multi-media knowledge and provide opportunities not only to learn more about the relevant and key planetary issues, but to support all three key areas.

Civiliti promotes EcoArt to create awareness, stimulate dialogue, and encourage the long-term respect for the natural systems with which we coexist, incorporating the history, the community and the stories with the environment and/or human rights in their actual work product and in the related knowledge dissemination.

All the above exemplifies why Civiliti is – in and of itself – a vehicle, an instrument – supporting the United Nations Global Compact, its Principles, its Goals. EcoArt – embedded in its meaning – is the belief, the understanding, and the practice of preserving sustainability ... equality ... in human rights and the environment, thus supporting knowledge development in the fundamentals behind the Global Compact.

### Measurements:

With respect to Measurement of Outcomes, Civiliti programs are established with measurables inherent in the actual participation and from participants directly. The actual use and development, sharing and purchase of Ecoart, also provides for measurement of utilization. Qualitatively, reactions from participants, from Champions, from businesses and non-profits, including universities, has been both extremely positive and exciting. We realize our value to the planet and to the UN Global Compact goals and objectives and are confident of our impact over the next several years.

It is still early in the history of Civiliti programs to speak to levels of numerical activity. Civiliti will be able to speak very specifically about the results of its efforts on behalf of the Global Compact awareness and knowledge development which can be surmised by the programs outlined here. Since Civiliti is a knowledge network devoted to human rights and environmental sustainability, all our activity is important relative to Civiliti success and success in support of the Global Compact.

Thank you so kindly for allowing us the privilege to participate and support the UN Global Compact Goals and Objectives.
