

## **PALM OIL POLICY**

We, at STEARINERIE DUBOIS, are committed to reduce our footprint all along our activities.

We believe, even as a small player in the market of palm oil derivatives esters, that we can contribute to build a sustainable Palm Oil Supply Chain.

With this in mind, we support the RSPO Principles and Criteria 2018 and are certified RSPO MASS BALANCE and SEGREGATED SCCS.

We strongly encourage and follow the progress of our palm oil derivatives suppliers. We apply due diligence practices to check their compliance with our policy to follow:

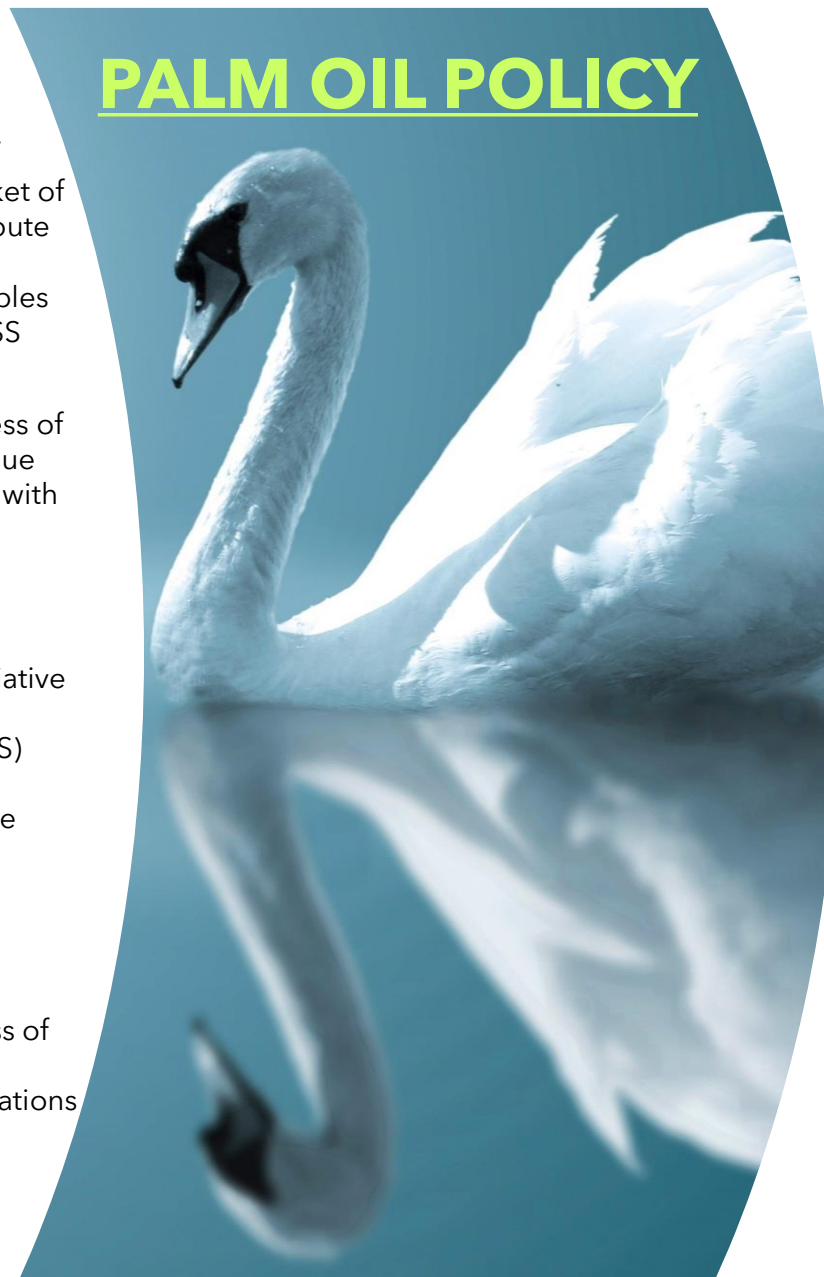

### **NO DEFORESTATION**

As per RSPO & Accountability Framework initiative guidelines:

- No development on High Carbon Stock (HCS) Areas,
  - No development on High Conservation Value Areas (HCVA),
- as defined by High Carbon Stock Approach (HCSA).

### **NO PEAT**

- No new development on peatland regardless of depth,
- Best management practices in existing plantations on peatlands.

### **DRIVE POSITIVE SOCIO-ECONOMIC IMPACT FOR PEOPLE AND COMMUNITIES**

As per the UN Guiding Principles on Business and Human Rights, including respect for:

- The rights of workers including temporary contracts, and migrant workers,
- Land tenure rights and the rights of indigenous and local communities including Free, Prior and Informed Consent (FPIC) to operations on lands to which they hold legal, community or customary rights,
- The rights of vulnerable and marginalized groups.

**Supporting smallholders through their inclusion** in the global palm oil derivatives supply chain.

### **TRACEABILITY**

Develop traceable supply chain.

**We also expect from our suppliers** the adoption of local and international logistical processes conceived to limit their environmental impact especially their carbon footprint.

We are convinced that traceability, certifications and scientific knowledge can guarantee the use of good agricultural practices leading to an optimized yield in existing plantations without additional expansion.

These objectives take part in the Sustainable Development Goals of the United Nations while respecting Human Rights, protecting forests and biodiversity and facilitating the access to education to local population.
