Seus diretores, conselheiros e membros atuam difundindo os valores da associação em seus cargos públicos, cargos administrativos em empresas privadas, e também junto aos estudantes de diversas universidades. Ratificamos o nosso compromisso ético contida nos princípios do Pacto Global.

O número de associados da ABJICA é atualmente de aproximadamente 1.500 pessoas entre profissionais e estudantes brasileiros, porém sua atuação é reconhecida nacionalmente e internacionalmente, principalmente pela participação em palestras e em eventos realizados virtualmente.

Parte III. Medição de resultados

A Associação dos Bolsistas JICA – São Paulo (ABJICA) , tem trabalhado, cada vez mais, por meio de discussões, contribuições e através de um relacionamento transparente e ético na relação com as instituições, e disseminando conhecimento na área da saúde do idoso, desastres naturais, educação ambiental, recursos hídricos, agricultura sustentável, inovação tecnológica e cidades sustentável, para que através dessas ações seja possível melhorar a saúde e a qualidade de vida da população brasileira, e buscando mais parcerias que novas ideias sejam postas em prática.

A ABJICA acredita que debatendo, apontando problemas e sugerindo alternativas, para os temas como inovação, acesso à saúde, saneamento, biotecnologia, pesquisa clínica, desastres naturais, cidades resilientes, ética e combate à informalidade, poderemos ter avanços consideráveis em nosso país.

Muitos temas, propostos pelo Pacto Global ainda precisam ser abordados ou ampliados pela Associação. De qualquer forma, a ABJICA tem se organizado para elaborar iniciativas para que seja possível contribuir ainda mais para a sociedade brasileira, fortalecendo essas ações nos princípios norteadores do Pacto Global.

Hoje estamos plantando nossas sementes pensando num futuro melhor para o nosso Brasil.

"Se você quer saber o que vai colher amanhã, basta observar o que está semeando hoje".
