Dear Mr. ANTÓNIO GUTERRES,

I am pleased to confirm that **ENTERTAINMENT SOLUTIONS** supports the ten principles of the Global Compact on human rights, labor, environment, and anti-corruption. With this philosophy, **ES** has maintained its global business with a low reduction of structure. Thanks to a strong team commitment, our people redesign and deploy the ZAFIRO Hospitality IPTV code towards cloud architectures: **ZAFIRO is ready as a Cloud Ecosystem.**

The consequences of global pandemic COVID-19 foster ES Team to accelerate the development and pilots of **ZAFIRO** to support Hospitality Sector. And to learn as quick as possible from our customers, their new processes and needs. We took advantage of our deep experience in previous developments to support global population. **Codes that started from scratch and ready in record time, available for different environments across Sectors, to reach as maximum people as possible.** This is ES contribution to **Digitalization, the 7th Commitment** raised in the 75 Anniversary UN Reports.

With this communication, we express our intent to continue our commitment and further implementation of those principles. We are committed to making the Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. **ENTERTAINMENT SOLUTIONS** is a zero-tolerance of corruption company: **ES** makes a clear statement.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles and support any specialized UN Global Compact issue platform that our company may join later. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,
