

4th of April 2022

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to new ownership of the company from the 15th of February 2021. This has led to restructuring within the organisation as well as implementation of new internal procedures and processes. This has led to a delay in the publishing of our Sustainability Report.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by the 30th of June 2022 at the latest.

Sincerely yours,

Recipharm AB
