Communication on Progress

Dear Mr. Secretary-General,

I would like to use this opportunity to reaffirm our commitment to the UN Global Compact and its ten principles with respect to human rights, labour, environment and anti-corruption. This year's communication on progress has been integrated into Eastnine's 2021 annual report which is used a primary tool of sharing both financial and sustainability information with our stakeholders.

Our sustainability goals, based on the ten principles, are described on pages 22-25 in the sustainability section of the annual report, produced in accordance with the GRI framework. The GRI index provides specific references to where in the report the information related to the ten principles can be found. The annual report is publicly available via our company website

<https://www.eastnine.com/en/financial-reports-presentations-webcasts>

During the past year our efforts in the sustainability space received several external recognitions including USGBC Leadership Award for Europe for contribution to the development of equitable and resilient buildings and communities. Additionally, we received a recognition from Allbright Foundation in Sweden by being ranked among top 3 listed companies in Sweden with regards to gender balance in management. We intend to raise our ambitions even further during 2022 as well as closely monitor the progress towards our existing goals.

Sincerely yours,

Kestutis Sasnauskas
CEO, Eastnine AB
