Dear Transparency and Disclosure Team.

COMPENSATION INTERNATIONAL PROGRESS S.A. Known as –Ciprogress Greenlife- recognizes that a key requirement to continue to be part of the UN Global Compact is the annual construction and surrender of our Communication on Progress (COP); that comprises a statement of continued support to the UN Global Compact, a description and measurement of practical actions with regard to the ten principles of the UN Global Compact, and a measurement of findings and outcomes of our daily activities.

We are currently working in the construction of our fifth CoP Report; unfortunately, we are not able to submitted by the dateline 21st of April 2022. For this matter we hereby request an extension period in order to be able to complete and post a report that accurately describes our company's actual stage, efforts and progress among our (G.I) Groups of Interest.

Our company wants to reaffirm its holistic and responsible commitment to the ten principles of the United Nations Global Compact. The company -Greenlife- which I represent, assumes, ratifies and endorses the four pillars which are: (1) Human Rights, (2) Labor Standards, (3) Anti-Corruption, and (4) Environment, committing ourselves to respect and actively promote them.

Best Regards.
