## COMMUNICATION ON ENGAGEMENT 2022

I am pleased to inform you that Environment Improvement Centre firmly supports the ten principles of the UN Global Compact.

Having partners with different backgrounds like corporations, private and public sector, NGOs, our sphere of influence enables us to promote and support the implementation of Principles by different stakeholders. This is our fourth Communication of Engagement, since we became members of the UN Global Compact in 2011, and we have taken a large number of activities to promote and spread Principles in Serbia.

1. Conducting researches and public policy monitoring on circular economy issues like textile waste, food waste, single-use plastics and promoting UN SDGs within these topics;
2. Education of the public, with a strong focus on youth, on the environment, circular economy and climate change, through the annual organization of International Green Culture Festival "Green Fest" which is the largest festival of this type in South East Europe, and projects implemented by the organization;
3. Direct actions in partnership with companies that have CSR programs to bring in the change to the local community (greening, planting, refurbishing);

We will also stay strongly committed to the UN Global Compact Principles in the future.

Belgrade,  
1st May 2022

Environment Improvement Centre  
Executive Director  
Ms Ivana Jovčić
