

COMMUNICATION ON PROGRESS (COP) FOR SCANIA CV AB

From the core values to our global management systems and the way Scania conducts its business, Scania is committed to upholding the ten principles of the United Nations (UN) Global Compact relating to human rights, labour, the environment and anti-corruption. We are embedding its 10 principles in our operations, in our supplier and other business relationships or partnerships and take actions that advance societal goals. Further information about how Sustainability is at the core of our business strategy can be found [here](#) and how our materiality analysis is conducted can be found [here](#).

This Communication on Progress (COP) is Scania's annual disclosure to stakeholders about the company's efforts to implement the principles of the UN Global Compact. Scania joined the UNGC in 2012.

Scania has one primary channel to report sustainability information, our integrated Annual and sustainability report. The 2021 edition of Scania's Annual and Sustainability Report takes substantial steps in outlining the journey that Scania is taking towards a sustainable transport system. It is the company's seventh combined annual- and sustainability report, detailing its financial, social and environmental performance. The report addresses sustainability issues both on strategic and in-depth level all along the value chain of our products. It reflects how sustainability drives and has impact on our business, long-term strategy, risks, and opportunities.

It is prepared in accordance with the Global Reporting Initiative's (GRI) Reporting Guidelines, we aim to fulfil the "In accordance – Core" criteria of the GRI standards. The GRI index is subject to a limited assurance assessment. The Auditor's Limited Assurance Report can be found in the annual report. The report is also aligned with the TRATON group Volkswagen Group guidelines on sustainability reporting, and is self-declared. Scania recognizes the importance of the Task Force on Climate-Related Financial Disclosures (TCFD) and has started the journey to integrate aspects of the framework and will continue to develop the company's reporting in accordance with its recommendations. This year Scania reported on the eligibility of economic activities aligned with the EU Taxonomy.

Content is written both for business partners, employees and for other engaged stakeholders, sustainability specialists and analysts. The report is complemented with information on our webpage. (*Download the full report [here](#).*)

A description of the transport industries relation with the Sustainable Development Goals and examples on Scania's contribution can be found [here](#).

Mr. Christian Levin, Scania's President and CEO expresses Scania's continued support for the Global Compact which can be found [here](#).
