

RELAYTO/

DOCUMENT EXPERIENCE PLATFORM

May 4, 2022

To our stakeholders:

We recognize that for companies to participate in the UN Global Compact its participants must prepare a Communication on Engagement (COE) each year. The COE must include a chief executive's statement of continued support for the UN Global Compact, descriptions of actions taken in support of the UN Global Compact, and measurements of outcomes or expected outcomes.

Due to many time-sensitive priorities, we were unable to timely create and disseminate our COE report.

We request an extension period to allow us to post a comprehensive response describing our organization's efforts and progress in support of UN Global Compact principles. Our response will be posted at the latest by **August 16, 2022** on the website of UN Global Compact.

Sincerely yours,

Alex Shevelenko
