Grace Letter

To whom it may concern:

We recognize that a fundamental requirement for participating in the United Nations Global Compact - UNGC is the preparation and annual submission of Communication of Progress - CoP, which has a statement of ongoing support for the UNGC, a description of practical actions regarding principles of the UNGC, and a metric of the expected results.

We are developing our CoP for publication until **13 June 2022**, however, as this is our first issue of CoP considering only Brazil office actions, we may need more time for creation, sharing, and publication.

Based on that, we hereby request an extension in the period to be able to publish the CoP report, which describes our efforts and the progress of implementing the UNGC principles. Our CoP report would be published on the UNGC website by **13 September 2022**.

Yours faithfully
