

UN Global Compact

Communication on Progress (COP) – PGS ASA

10-Jun-2022

To our stakeholders,

I am pleased to confirm that PGS reaffirms its support to the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-Corruption.

In this annual COP we refer to our Sustainability Report 2021 (enclosed). We have aligned our sustainability reporting process with the annual financial reporting structure, which means that our sustainability report is summarizing activities and key figures from the year 2021.

We also direct you to the sustainability section (<https://www.pgs.com/responsibility/>) of the PGS website for a detailed description of how PGS defines sustainability work and what topics are included under our sustainability umbrella.

The Sustainability Report 2021 and the sustainability web pages together form the 2021 COP report, as they supplement each other.

We commit to sharing this information with stakeholders through our primary communication channels and as part of our annual reporting.

Sincerely yours,

Best regards PGS ASA,
