

Lausanne, the 28th June 2022

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing, and posting our COP report due to a lack of resource to write and a lot of events that needed to be taken care of by the same person in charge of writing the COP (we are 30 people in our startup). We thought at the time we applied to Global Compact, that we would have more employees to take care of those reports, but we are not there yet. We are a startup working to make the supply chain more sustainable and have a LCI of our product. Our employees are all signed under swiss working law or Portuguese working law. We have hired a legal employee who makes sure that our contracts are compliant.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 15 September 2022 at the latest.

Sincerely yours,

Ms. Aryane Boroumand
PR Associate
