

Lisbon, 28<sup>th</sup> of June 2022

To our stakeholders,

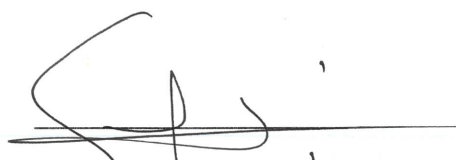

In recent years, IM Gestão de Ativos – Sociedade Gestora de Organismos de Investimento Coletivo, SA (IMGA) has sought to guide its action by principles of high social, environmental and economic responsibility, favoring practices that promote the rationalization of resources, the respect for people, the promotion of ethics and transparency and broad sustainable development.

In this context, this year IMGA opted for a document that integrates these three dimensions, substantiated by this Sustainability Report, published together with the Company's 2021 Report and Accounts which also includes our efforts to integrate the Ten Principles of the United Nations Global Compact into our business strategy, culture, and daily operations, after becoming a signatory in 2021.

There is still a long way to go in this challenging but pressing process of analysis and transverse adaptation of IMGA's culture and strategy in terms of sustainability. However, the Company reiterates its willingness to, together with its stakeholders, continue to work with commitment and seriousness for a more sustainable future.

Therefore, I am pleased to confirm that IMGA reaffirms its support to the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

Sincerely yours,

  
Emanuel Silva  
CEO
