SPECIFIC STANDARD DISCLOSURES

GENERAL DISCLOSURES

Organizational profile

102-1 Name of the organization

FAI rent-a-jet GmbH

102-2 Activities, brands, products and services

Table 1: Primary brands, products and services

Brand / Product / Service	Description
Executive Jet Charter	A product for Executives, VIPs and VVIPs demanding a high degree of flexibility and privacy
Air Ambulance	Worldwide transport of patients under intensive care treatment
Special Logistics	Logistical support to government agencies and non-governmental organizations, e.g. in peace keeping operations
Aircraft Leasing	Short-, medium- and long-term leases
Aircraft Maintenance	Base and Line Maintenance of Business-Jets
Aircraft Trade	Purchase and sale of aircraft

Our organization sells no products and/or services which are banned or disputed in certain markets.

102-3 Location of headquarters

Table 3: Location of organization's headquarters

Address	
Street	Flughafenstrasse 124
Post code	90411
City	Nuremberg
Country	Germany

102-4 Location of operations

Our organisation operates in five countries.

Table 4: Countries of operations

Country	Significant operations
Germany	Leasing, maintenance and refurbishing of business jets, Business-Jet Charter, Air Ambulance
United Arab Emirates	Liaison office in Dubai, supporting contracts with U.A.E governmental agencies in ref. to Air Ambulance
Afghanistan	Line Station for UNAMA, Kabul
United States of America	Procurement office, purchase and sale of aircraft and spare parts
Iraq	Line Station for UNAMI, Baghdad

FAI rent-a-jet GmbH is operating out of five (5) countries and has liaison offices in Dubai (UAE) and in Miami (FL).

However, for the report - due to its size - only the headquarters in Nuremberg is relevant. The liaison offices and line-bases do not constitute independent branches.

102-5 Ownership and legal form

The legal form of the organization is: Limited liability company (GmbH).

Table 5: Nature of ownership

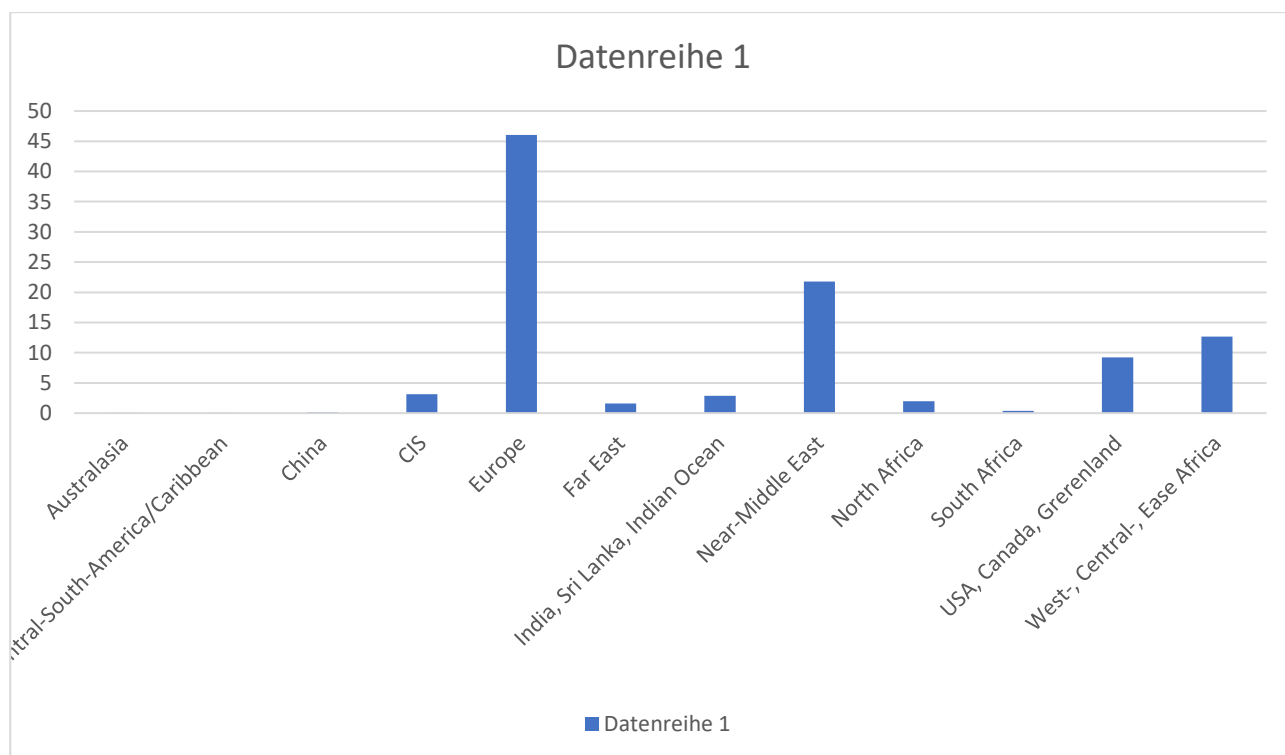

Owner	Share (in %)
FAI Aviation Group Holding GmbH	100.00%

102-6 Markets served

Table 6: Markets broken down by geographic location, sectors served, types of customers/beneficiaries and percentage of sales

Geographic location	Sector(s) served	Types of customers / beneficiaries	of /	Percentage of total sales accounted for by this market
AUSTRALASIA	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	0.07%
CENTRAL-, SOUTH_AMERICA/CARRIBEAN	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	0.08%
CHINA	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	0.16%
CIS	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	3.14%
EUROPE	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	46.07%
FAR EAST	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	1.58%

INDIA, SRI LANKA, INDIAN OCEAN	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	2.59%
NEAR-MIDDLE EAST	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	21.48%
NORTH AFRICA	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	1.97%
SOUTH AFRICA	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	0.39%
USA, CANADA, GREENLAND	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	9.20%
WEST-, CENTRAL-, EAST AFRICA	Travel insurance, assistance office, government agencies, health authorities, humanitarian organization, hospitals, corporate clients, private clients	Intensive patients	care	12.66%

Employment type	Number of employees
Full-time	
female	51
male	137
Part-time	
female	30
male	33
Total number of employees with full-time and part-time status	251

A substantial portion of the organization's work is performed by permanent employees. There are no significant seasonal variations in the number of employees. The evaluation of the data took place via the HR-Department.

In addition to our permanent staff, FAI employs a small number of freelance workers.

102-9 Supply chain

Our organization does not yet have a supply chain.

We are an air carrier, licensed by the European Aviation Safety Agency (EASA) according to EASA ORO PART-CAT, our Maintenance Organization (MRO) is certified according to EASA Part 145.

Our air ambulance operations are certified by EURAMI (European Medical Institute).

As a certified airline, we obtain parts only from suppliers providing us with a certificate of origin.

102-10 Significant changes to the organization and its supply chain

During the reporting period there were no significant changes in terms of the size, structure or ownership of the organization or the supply chain.

102-11 Precautionary Principle or approach

Our organization addresses the precautionary principle as follows:

Our headquarters in Nuremberg are carbon neutral. Also, in all of our facilities water savers are in place to reduce our daily use of fresh water.

Part of the electricity used is generated from our own photovoltaic system on the roof of Hangar 7.

For environmental reasons we use biogas instead of the common (cheap) gas.

102-12 External initiatives

Our organization endorses or supports external charters, principles and initiatives listed in the table.

- United Nations Global Compact
- Rio Declaration, principle 15

The precautionary principle 15 of the Rio Declaration on Environment and Development is implemented at the company level among other things as stated in the companies Code of Conduct.

102-13 Membership of associations

Our organization is a member of associations and interest groups listed in the following table:

- EURAMI (European Aero-Medical Institute e.V.)
- EBAA (European Business Aviation Association)
- GBAA (German Business Aviation Association e.V.)
- MEBAE (Middle East Business Aviation Association)
- ABAA (African Business Aviation Association)
- United Nations Global Compact
- Metropolregion Nuremberg

Strategy

102-14 Statement from senior decision-maker

Dear Readers,

FAI Aviation Group operates Germany's largest fleet of Bombardier business jets which brings with it significant operational and cost benefits. In addition to five Global Express jets, FAI's fleet includes one Challenger 850, six Challenger 604s, nine Learjet 60s, together with one Premier 1A light jet.

FAI runs a 14,000 m² carbon-neutral fixed-base operation at its Nuremberg, Germany headquarters, employing a staff of 250 people, including 60 mechanics and engineers at its in-house MRO FAI Technik GmbH. FAI's Group revenues in 2021 were close to € 100 m with a fleet utilization of ca. 14,000 hours of airtime.

In 2020 and 2021 FAI received the prestigious Award "Air Ambulance Company of the Year" from ITIJ Magazine.

In 2021, FAI was awarded the Pandemic Response Special Award in recognition of its response to the Covid-19 pandemic.

FAI is official supplier of the McLaren Formula 1 Team.

Corporate responsibility and the reporting of corporate responsibility strategies and programs at FAI continue to be a work in progress. While initiatives and programs, as well as progress from year to year are discussed, we recognize the need to report quantifiable metrics and targets, in particular as they relate to our social performance and economic impact. These are a lot of goals to reach for FAI and we are willing to reach and improve them every year.

Please follow us on our way.

With kind regards

Dr. Siegfried Axtmann
Chairman

102-15 Key impacts, risks and opportunities

The examination of the fundamental economic, ecological and social impacts, risks and opportunities takes place on an ongoing basis.

Irregularities are checked as soon as they occur and, if necessary, countermeasures are taken.

The examination in detail takes place annually with the elaboration of the sustainability report.

Ethics and integrity

102-16 Values, principles, standards and norms of behaviour

Our organization is based on values, principles, standards, or norms of behaviour.

Table 12: Values, principles, standards, or norms of behaviour

Value / principle / standard / norms of behaviour	Name	Description of how the value / principle / standard and norm of behaviour was developed, approved and implemented
Principle	Employee Contract	Employment contracts are drafted by our legal department as well as overseen by our Human Resources Department
Standard of conduct and norm	Code of Conduct	Distribution by the Quality Management Team and as such is issued to each new employee on their first day of work

There are regular training courses in terms of value, principles and standards of conduct and norms for members of the governance board, our employees and business partners. New stakeholders are required to acknowledge our principles, standards of conduct and norms. These include members of the governance board, our employees and business partners. The person in the following position is responsible for the values, principles and standards of conduct and norms: Head of Human Resources and Legal together with the staff members employed in this department.

Our principles and standards of conduct and norms are available in different languages so that they reach all members of senior management, employees, business partners and other stakeholders.

In terms of values, principles and standards of conduct and norms we are continuously training our employees. New stakeholders are required to read our principles, standard of conduct and norms confirming their acknowledgement and consent by signature. These include members of the governance board and our employees. The Quality Manager is responsible for the ongoing process of development and formulation of values, principles and standards of conduct and norms.

102-17 Mechanisms for advice and concerns about ethics

In our organization there is a formal complaints procedure in relation to concerns about ethics. This is possible via an anonymous complaint box next to the human resource department. Any kind of concerns about ethics, whether anonymous or personal, is taken very seriously and will be investigated. No concerns were raised during the reporting period. Our employees are trained regarding the urgency of these tasks.

Governance

102-18 Governance structure

Our organization has the following governing bodies and committees in the governance structure: In 2021 the Board consists of two (2) Managing Directors and the Advisory Board with three (3) members.

The following committees are responsible for decision-making in economic, environmental and social impacts: Managing Directors

102-19 Delegating authority

Basically, the communication and delegation of tasks takes place between the Managing Directors and the department heads. The department heads in turn pass on the information to the employees and executives. This can also be done in the sense of a work instruction by email or by posting in the relevant department.

For general topics affecting all employees or the behaviour of all employees, a written work instruction will be issued by the Managing Directors, which will be sent to all employees by email. In addition, a notice is posted in all departments.

102-20 Executive-level responsibility for economic, environmental and social topics

Our organization has not yet appointed an executive-level position with responsibility for sustainability topics. Communication and delegation of tasks takes place between the Managing Directors and the department heads.

102-21 Consulting stakeholders on economic, environmental and social topics

In general, every employee has the opportunity to make suggestions for improving the implementation of sustainability issues.

These are communicated directly by the employees or by the respective department heads to the Management. The Management, in turn, communicates the proposals to the highest control body. The procedure for dialogue between stakeholders and the highest governance body on economic, environmental and social issues takes place in different ways, mostly in the course of regular meetings, but also via telephone calls or emails.

102-22 Composition of the highest governance body and its committees

Our organization has the following governing bodies and committees in the governance structure:

In 2021 the board consists of two (2) Managing Directors and the Advisory Board with three (3) members. Managing

The following committees are responsible for decision-making in economic, environmental and social impacts: Managing Directors.

102-23 Chair of the highest governance body

In our organization the Chair of the highest governance body isn't an executive officer.

102-24 Nominating and selecting the highest governance body

The Management Board consists of 2 members.

The members of the Management Board are elected by the general shareholders' meeting.

102-25 Conflicts of interest

We don't have implemented processes for the highest governance body to ensure conflicts of interest are avoided and managed.

However, positions with high potential for conflicts of interest are subject to very strict controls and ongoing reviews, e.g. also Membership in multiple committees, cross-shareholdings with suppliers and other stakeholders, or relationships with related companies and individuals.

102-27 Collective knowledge of highest governance body

Measures have been taken to further develop and improve the competencies of the highest governance body in economic, environmental and social issues. The exchange of knowledge within the individual management bodies takes place during rainy meetings, telephone conferences or in writing. Existing plans and structures are continuously adapted to economic, environmental and social issues.

102-28 Evaluating the highest governance body's performance

Economic, environmental and social topics are continuously checked and reassessed. The review takes place in the individual departments. The results and necessary evaluations are submitted to the highest governance body for review and then implemented.

102-29 Identifying and managing economic, environmental and social impacts

In dealing with economic, environmental and social impacts, risks and opportunities, regular audits are taking place to see if the incorporated procedures are still timely and effective.

This is done in close dialogue with stakeholders and the members of the management board.

102-30 Effectiveness of risk management processes

The highest governance body does review the effectiveness of the organization's risk management processes for economic, environmental and social topics. Risk management processes have to be constantly adapted to current developments and circumstances.

102-31 Review of economic, environmental and social topics

The examination of the fundamental economic, ecological and social impacts, risks and opportunities takes place on an ongoing basis.

Irregularities are checked as soon as they occur and, if necessary, countermeasures are taken.

The examination in detail takes place annually with the elaboration of the sustainability report.

102-32 Highest governance body's role in sustainability reporting

The report is formally reviewed and approved by the Chairman as well as the members of the Management Board.

102-33 Communicating critical concerns

The organization has a process for communicating critical concerns to the highest governance body in place. Processes for communicating critical concerns to the highest governance body:

- Employees via a suggestion scheme
- Employees via the supervisors
- Employees directly to the Management
- Employees directly to the Management Board

102-34 Nature and total number of critical concerns

The highest governance body does review the effectiveness of the organization's risk management processes for economic, environmental and social topics.

In the reporting period 01.01.2021 - 31.12.2021 no critical concerns were reported.

102-35 Remuneration policies

No information is provided on the company's remuneration policy.

102-36 Process for determining remuneration

At FAI rent-a-jet GmbH remuneration is based on educational level, experience, job performance and by time and service provided to the company.

No remuneration consultants are involved in determining remuneration.

102-37 Stakeholders' involvement in remuneration

Remuneration is based on the level of education, experience, work performance, and time and effort spent on the company, and may be assessed differently from employee to employee.

102-38 Annual total compensation ratio

No information is provided on the annual remuneration of any or all employees of the company.

102-39 Percentage increase in annual total compensation ratio

No information is provided on the annual remuneration of any or all employees of the company.

Stakeholder engagement

102-40 List of stakeholder groups

During the reporting period the organization's stakeholders were involved in sustainability issues. The following table shows the involved stakeholders.

- Management
- Employees
- Shareholders and providers of capital

There was great engagement from employees and stakeholders alike during the time of data collection.

102-41 Collective bargaining agreements

Our organization has no employees covered by collective bargaining agreements.

102-42 Identifying and selecting stakeholders

During the reporting period the organization's stakeholders were involved in sustainability topics. The identification and selection of stakeholders is made in accordance with the following principles and procedures:

The management is the driving force associated with the subject of sustainability. During the discussion about the material aspects and indicators additional employees were involved gradually into the process.

102-43 Approach to stakeholder engagement

Stakeholders of our organization were involved in discussions on sustainability issue during the reporting period. The following table shows the methods of stakeholder involvement.

Table 14: Stakeholder involvement and frequency

Procedure	Stakeholder groups	Frequency of engagement
In a transparent and continuous dialog process	various staff members	several times in the course of the reporting time

Stakeholder involvement occurred not only as part of the report preparation process but also independently. Our organization is planning in the medium term to increase stakeholder involvement and to implement it in the management process.

102-44 Key topics and concerns raised

Table 15: Key topics and concerns through stakeholder engagement and organisation's response

Topic / Concern	Stakeholder groups that raised the topics and concerns	Response of the organization
Labour Practices	Human Resources	see matrix 102-47
Customer Satisfaction	Customers	see matrix 102-47
Product Responsibility	Charter	see matrix 102-47
Human Rights	Management	see matrix 102-47
Environment	Management	see matrix 102-47
Economic Performance	Management Accounting	see matrix 102-47

Employees from several departments including upper management, human resources, accounting, charter and engineering were involved in the preparation of this report. Their involvement was of great importance for the completion of this report.

Reporting practice

102-45 Entities included in the consolidated financial statements

The following information regarding the specified organizational units can be found in these documents:

Information on the consolidated business units can be found within the published available audit report-consolidated financial statements. These are published in the Federal Gazette Bundesanzeiger (www.bundesanzeiger.de). Enter FAI as a search term. The Company is managed by the Management Board, consisting of two (2) members in 2021. The Management Board is responsible for all decisions regarding economic, environmental and social impacts.

102-46 Defining report content and topic boundaries

In order to define the material aspects and boundaries of the report, we used as a foundation the published calculation methods. In the first step, we evaluated the data base in the GRI stakeholder survey of the sector air transportation (primarily passenger air transportation), in order to take the size of FAI rent-a-jet GmbH into account. In the second step, we adapted the materiality matrix using an initial selection of indicators and aspects. This adaption as well as the selection of relevant indicators are based on the contribution of the Executive Assistant to Chairman and were carried out in consultation with Members of the Management Board. It was done in close collaboration with the staff of Human Resources, Operations, Accounting as well as other staff members. Aspects and indicators, whose materiality was classified as low or very low and were not taken into consideration in this report.

102-47 List of essential topics (in ref. to GRI Standard 2016)

102-48 Restatements of information

Our organization has previously reported on sustainability issues.

FAI-rent-a-jet GmbH (former: FAI rent-a-jet AG) has published a sustainability report in previous years. As this report becomes more detailed, we comply with this.

102-49 Changes in reporting

In comparison to the previous Sustainability Report there have been no changes in the scope of report of material topics and topic boundaries.

Please also refer to 102-48

102-50 Reporting period

The information shown in the report covers the fiscal year from Jan 1, 2021 to Dec 31, 2021.

102-51 Date of most recent report

The last Sustainability Report was published 2021 for 2020.

102-52 Reporting cycle

Our report is published at periods of one year.

102-53 Contact Person for questions about the report

FAI rent-a-jet GmbH, Flughafenstr. 124, 90411 Nuremberg, +49 911 36009-0

102-54 Claims of reporting in accordance with the GRI Standards

This report has been prepared in accordance with the GRI Standards: Core option.

102-56 External assurance

The sustainability report has not and will not be externally audited.

MANAGEMENT APPROACH

103-1 Explanation of the main topic and its delimitation

In the list of essential topics under GRI 102-47, we have classified the individual topics according to their importance to our company and our stakeholders.

Essential topics classified as Very High are:

- Economic Performance (GRI 201)
- Emissions (GRI 305)
- Occupational Health and Safety (GRI 403)
- Customer Health and Safety (GRI 416)

Also all other topics, which are classified from very low to high, are detailly described in the course of reporting.

103-2 The management approach and its components

Please refer to the detailed remarks of GRI 200 / GRI 300 / GRI 400

103-3 Evaluation of the management approach

Please refer to the detailed remarks of GRI 200 / GRI 300 / GRI 400

GRI 200: ECONOMIC

GRI 201: Economic Performance (in ref. to GRI Standard 2016)

201-1 Direct economic value generated and distributed

For determining taxable income our Company uses accruals-based accounting method recorded as revenue and expenditures in the income statement. As a result of the internal data management system previously used, the economic business figures required by GRI were not yet available in this format.

We will adjust the system to be able to generate these business figures in the near future in the appropriate format.

The EVG&D cannot be allocated by national, regional or market level. The reason being that the percentage of local supply options depend on routes flown in the air and therefore fluctuates significantly in order to be able to report fixed percentages.

201-2 Financial implications and other risks and opportunities due to climate change

We have not yet verified the risks of natural disasters due to climate change for our business activities. We assume no strong hazard due to our geographical location. FAI rent-a-jet GmbH does not operate in the classic energy-intensive industries, however, ranks among a growing sector with raising greenhouse gas emissions: Air-transport CO₂-regulations apply for all aircraft operators according to European Emissions Trading System (EU-ETS) for intra-European Economic Area (EEA) flights.

However, we are affected indirectly by climate changes, as we have to pay for higher energy and raw material prices, which in turn result in higher demands on energy management. Nevertheless, we have a CO₂ strategy, which is explained in more depth in the environment section of this report.

We are unable to provide information on a systematic and database-supported analysis of the financial consequences of climate change.

201-3 Defined benefit plan obligations and other retirement plans

Our organization does not have an occupational pension provision for employees. Currently there is no plan to introduce a scheme.

All fixed employees are covered by the German Social Security System which includes a pension scheme. As provided by law, FAI rent-a-jet GmbH contributes 50 percent to all contributions of the employees into this pension scheme, up to the social security contribution ceiling.

201-4 Financial assistance received from government

During the reporting period we have not received any financial assistance from governments.

A government is involved as a shareholder of our organisation to the following extent:

No government is involved as a shareholder in our organisation.

GRI 202: Market Presence (in ref. to GRI Standard 2016)

202-1 Ratios of standard entry level wage by gender compared to local minimum wage

FAI rent-a-jet GmbH's wages are based on the employees' ability, engagement, job performance and commitment. There is no gender bias regarding pay scale and everyone is paid above minimum wage.

202-2 Proportion of senior management hired from the local community

Employees in the senior management as well as all other employees are hired according to our requirements and their qualifications.

We do not distinguish between geographic differences. Likewise, no geographic profiles are created.

GRI 203: Indirect Economic Impacts (in ref. to GRI Standard 2016)

203-1 Infrastructure investments and services supported

We have made no investment in infrastructure or services supported during the reporting period.

203-2 Significant indirect economic impacts

An indirect economic impact for third parties due to the activities of our organization is not known to us.

GRI 204: Procurement Practices (in ref. to GRI Standard 2016)

204-1 Proportion of spending on local suppliers

Our company does not have a specific policy determining that locally-based suppliers shall be given preference. It is currently not planning to introduce such a policy either. Even with such policy in place the main suppliers for aircraft parts and services are in the United States, France and the UK.

GRI 205: Anti-corruption (in ref. to GRI Standard 2016)

205-1 Operations assessed for risks related to corruption

Due to our zero-tolerance policy, the risk of corruption is very low. Description as such is found in the Company's Code of Conduct.

205-2 Communication and training about anti-corruption policies and procedures

Each new staff member receives a FAI rent-a-jet GmbH's Code of Conduct for review and signature the day he/she starts working. It provides instructions, policies and procedures to combat corruption.

205-3 Confirmed incidents of corruption and actions taken

During the reporting period there were no incidents of corruption in our organization.

GRI 206: Anti-competitive Behaviour (in ref. to GRI Standard 2016)

206-1 Legal actions for anti-competitive behaviour, anti-trust, and monopoly practices

In the reporting period, our organization was involved in zero legal actions due to anti-competitive behaviour or violations of antitrust law.

In the reporting period for the year 2021 FAI rent-a-jet GmbH has not been involved in any proceedings arising from anti-competitive behaviour or violations of cartel law. We comply with applicable laws and consults legal experts regarding antitrust and competition laws.

GRI 207: Taxes (in ref. to GRI Standard 2019)

207-1 Tax concept

FAI's tax strategy is executed in compliance with our Code of Conduct as well as all applicable laws and regulatory requirements, including those that pertain to timely completion and filing of tax returns and those related to disclosure of tax positions.

We seek to have a transparent relationship with the tax authorities in the countries in which we operate and conduct tax audits as required to provide requested information in a timely manner.

The company does not engage in aggressive tax planning and does not use complex structures or offshore havens to minimize its tax liabilities.

FAI's Managing Directors are responsible for all financial matters relating to operational management and is supported by a team of qualified tax professionals.

207-2 Tax Governance, Control and Risk Management

FAI's Managing Directors are responsible for all financial matters relating to operational management.

The highest governance body does review the effectiveness of the organization's risk management processes. Risk management processes have to be constantly adapted to current developments and circumstances.

Concerns of any kind are promptly reported by the team of qualified tax professionals and solutions are proposed.

Information on the consolidated business units can be found within the published available audit report-consolidated financial statements.

207-3 Stakeholder engagement and management of tax concerns

The concerns of stakeholders are addressed as part of regular communication, e.g. in meetings and in reporting. Significant tax issues and projects are also presented to the Advisory Board for information or approval. In order to take the perspectives of the various stakeholders into account in the decision-making process, external expert opinions are also obtained as appropriate.

207-4 Country-by-country reporting

Information on the consolidated business units can be found within the published available audit report-consolidated financial statements.

GRI 300: ENVIRONMENTAL

GRI 301: Materials (in ref. to GRI Standard 2016)

301-1 Materials used by weight or volume

Table 17: Total weight of renewable and non-renewable materials used

Material	Weight
Total weight of renewable material (in t)	0.00
Total weight of non-renewable material (in t)	3.27

301-2 Recycled input materials used

Our organization used no recycled materials in the reporting period.

301-3 Reclaimed products and their packaging materials

Our company offers no reclamation system for our products and/or packaging materials.

GRI 302: Energy (in ref. to GRI Standard 2016)

302-1 Energy consumption within the organization

In the reporting period energy has been purchased, produced and sold.

Table 18: Total amount of indirect energy consumption differentiated by indirect renewable and indirect non-renewable energy sources in Gigajoule (GJ)

Energy source	Energy (GJ)
Renewable energy sources	
Electricity	2,553.95
Non-renewable energy sources	
Electricity	0.00
Total indirect energy consumption	2,553.95

Table 19: Total amount of self-generated energy broken down by renewable and non-renewable energy source

Energy source	Energy (GJ)
Renewable energy source	
Electricity	642.26
Total energy produced	642.26

Table 20: Total amount of energy sold broken down by energy source

Energy source	Energy (GJ)
Renewable energy sources	
Electricity	122.55
Total energy sold	122.55

Table 21: Total amount of energy consumption within the organization broken down by renewable and non-renewable energy source

Energy type	Total (GJ)	of which renewable (GJ)	of which non-renewable (GJ)
Purchased	1,911.69	1,911.69	0.00
Produced	642.26	642.26	0.00
Sold	122.55	122.55	0.00
Total energy consumption within the organization	2,431.40	2,431.40	0.00

The total amount of self-generated energy for the reporting year 2021 was 148,405.76 kWh (642.26 GJ). Of those, 34,042.00 kWh (122.55 GJ) were sold to the Flughafen Nürnberg Energie GmbH.

The energy generated originates from FAI's own photovoltaic system on the roof of Hangar 7.

The energy purchased from Flughafen Nürnberg Energie GmbH was 531,025.20 kWh (1,911.69 GJ) is 100 % renewable.

302-2 Energy consumption outside of the organization

We do not provide any information about upstream or downstream energy consumption.

302-3 Energy intensity

Table 22: Amount of energy, relevant types and intensity

Amount of energy	Unit of energy	Affected types of energy	Value reference size	Unit reference size	Energy intensity	Unit Result
15,803,892	l	Kerosene	11,378.10	flight hours	1,388.97	l Kerosene/flight hour

302-4 Reduction of energy consumption

Table 23: Initiatives to reduce energy consumption

The reduction of energy consumption is an ongoing process. Whenever possible, care is taken to keep energy consumption as low as possible. Lights that are not needed are switched off. Computers shut down after work. Machines that are not required are disconnected from power. Broken lights are replaced by modern, energy-saving lights. And so on.

302-5 Reductions in energy requirements for products and services

Savings by feeding green electricity into a national grid:

The supply of the photovoltaic energy system from Hanger 7 and its performance in 2021 is used as reference thereafter.

GRI 303: Water (in ref. to GRI Standard 2018)

303-1 Water discharge by quality and destination

Water is an increasingly scarce natural resource, and we as a company are aware of the impact, we as a unit can have. In all of our facilities water savers are in place to reduce our daily use of fresh water.

At FAI, water is withdrawn primarily via sanitary facilities (toilets and showers). In addition, water is taken to clean the offices and hangar areas.

In all of our facilities water savers are in place to reduce our daily use of fresh water.

303-2 Dealing with the impact of water recirculation

Our organization does not process service- and wastewater through a further cycle before its final treated or before it is redirected into the environment.

303-3 Water withdrawal

The following standards were applied in the measurement:

During the reporting period 2021 a total of 271 m³ (0,271 megaliter) of water usage was measured by the calibrated water meter supplied by Flughafen Nürnberg GmbH.

The withdrawal of water, by the organization, does not affect water sources significantly.

303-4 Water recirculation

Our organization has wastewater discharges, which are shown in the table below.

Table 36: Waste water discharges by location, destination and treatment

Location	Volume (in m ³)	Water quality	Destination	Methodologies	Reuse by another organization
Nuremberg	271.00	Treated in the external wastewater treatment plant	Public sewer system	Measurement	No
Total of all wastewater discharges	271.00				

We have used the following standards, methods and assumptions: The final numbers for the usage of water was compiled from an annual bill from the Albrecht Durer Airport Nürnberg.

Water is an increasingly scarce natural resource, and we as a company are aware of the impact, we as a unit can have. In all of our facilities water savers are in place to reduce our daily use of fresh water.

303-5 Water consumption

During the reporting period 2021 a total of 271 m³ (0,271 megaliter) of water usage was measured by the calibrated water meter supplied by Flughafen Nürnberg GmbH.

Of such 271 m³ (0,271 megaliter) were returned into the Public sewer system.

GRI 304: Biodiversity (in ref. to GRI Standard 2016)

304-1 Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas

There are owned, leased managed or adjacent facilities to protected areas or in areas of high biodiversity value without protection status.

Table 24: Locations in or adjacent to legally protected area(s) of high biodiversity value outside protected areas

Name of location	Geographic location / address	Type of operation	Subsurface and underground land use	Position in relation to the protected area	Size of operational site (in km ²)
Nuremberg	Airport - Hangar 6	Headquarters	No	Adjacent to protected area	a 0.14
Nuremberg	Airport - Hangar 7	Headquarters	No	Adjacent to protected area	a 0.14
Nuremberg	Airport - Hangar 8	Headquarters	No	Adjacent to protected area	a 0.14

Table 25: Biodiversity of locations listed in previous table

Name of location	Attribute of the area	Protected status	Name of the area
Nuremberg	Terrestrial	Protected forestry	Landscape protection areas Kraftshofer Forest
Nuremberg	Terrestrial	Natura 2000 (FFH area / European bird sanctuary)	Bird Sactuary Nürnberger Reichswald
Nuremberg	Terrestrial	Legally protected biotope	Biotope Marienberg

304-2 Significant impacts of activities, products, and services on biodiversity

The operations, products or services of our organization result in no impacts on biodiversity in protected or unprotected areas of high biodiversity.

FAI rent-a-jet GmbH is one of the leading providers of air ambulance and VIP charter services worldwide. The supply of services we offer is surely an exposure for the biodiversity in the nearby protected areas. Although we try our best to minimize the environmental damage, we will not be able to avoid it completely. We can't do much against the turbine exhausts our aircrafts produce, for patients must be brought home and pilots must absolve their training flights. But we do have other methods to save the environment like producing our own electricity, waste separation or investing in projects to reduce greenhouse gas emissions. Our headquarters in Nuremberg are carbon neutral.

There are no apparent dangers to the biodiversity for the locations listed in Table 25.

304-3 Habitats protected or restored

Our organization was not involved in rehabilitation, renaturalization or protection of areas.

304-4 Species on the International Union for Conservation of Nature (IUCN) Red List and national lists of protected species that are native to areas affected by operations

There are no known species on the International Union for Conservation of Nature (IUCN) Red List in the areas affected by the operations. Likewise, no species are known which are on the lists of protected species and have their habitat in the areas of operation.

GRI 305: Emissions (in ref. to GRI Standard 2016)

305-1 Direct (Scope 1) GHG emissions

Our organization calculates the entire Scope 1 CO₂ emissions with published calculation methods. The emission factors used consistently are mainly those of DEFRA (Department for Environment, Food and Rural Affairs), but also of GEMIS (Global Emission model integrated systems) and IFEU Institute. The GWP rates from the IPCC assessment reports are used based on a 100-year timeframe.

Results of the input or calculated Scope 1 CO₂ emissions are shown here.

Table 26: Scope 1 CO₂e emissions

Emission source	t CO ₂ e	Percentage (%)
Stationary combustion	0.00	0.00%
Company owned cars	89.24	0.22%
Company owned airplanes	40,123.40	99.78%
Air conditioning installations	0.00	0.0%
Production of energy from renewable energy sources	0.00	0.0%
Total	40,212.64	100.00%

Table 28: Methods of data collection of direct CO₂-emissions (Scope 1)

Emission source	Methodologies for data acquisition
Company owned vehicles	Calculation based on site-specific data
Company owned airplanes	Mass balance calculations
Air conditioning	Calculation based on published criteria
Production of energy from renewable energy sources	Calculation based on published criteria

The data shown in the CO₂-balance and corresponding indicators refer to the period from Jan 1, 2021 to Dec 31, 2021.

We use as consolidation approach for Scope 1 GHG emissions financial control.

305-2 Energy indirect (Scope 2) GHG emissions

Our organization calculates the entire Scope 2 CO₂ emissions with published calculation methods. The emission factors used consistently are mainly those of DEFRA (Department for Environment, Food and Rural

Affairs), but also of GEMIS (Global Emission model integrated systems) and IFEU Institute. The GWP rates from the IPCC assessment reports are used based on a 100-year timeframe.

Results of the input or calculated Scope 2 CO₂ emissions are shown here.

Table 29: Scope 2 CO₂e emissions

Emission source	t CO₂e market-based	t CO₂e location-based	Percentage (%) market-based	Percentage (%) location-based
Electricity	0.00	0.00	0.00%	100.00%
Gas	0.00	0.00	0.00%	100.00%
Total	0.00	0.00	0.00%	100.00%

Table 30: Methods of data collection of direct CO₂e emissions (Scope 2)

Emission source	Method of data collection
Electricity	Calculation based on published criteria
Gas	Calculation based on published criteria

The data shown in the CO₂-balance and corresponding indicators refer to the period from Jan 1, 2021 to Dec 31, 2021.

We use as consolidation approach for Scope 2 GHG emissions financial control.

305-3 Other indirect (Scope 3) GHG emissions

Our organization calculates the entire Scope 3 CO₂ emissions with published calculation methods. The emission factors used consistently are mainly those of DEFRA (Department for Environment, Food and Rural Affairs), but also of GEMIS (Global Emission model integrated systems) and IFEU Institute. The GWP rates from the IPCC assessment reports are used based on a 100-year timeframe.

Results of the input or calculated Scope 3 CO₂ emissions are shown here.

Table 31: Scope 3 CO₂e emissions

Emission source	t CO₂e	Percentage (%)
Paper	0.05	0.74%
Water	0.09	1.34%
Waste	6.58	97.92%
Total	6.72	100.00%

Table 32: Methods of data collection for direct CO₂e emissions (Scope 3)

Emission source	Method of data acquisition
Waste	Mass balance calculations
Paper	Estimation
Water	Calculation based on site-specific data

305-4 GHG emissions intensity

Table 33: CO₂ emission intensities

CO ₂ e emissions (in t)	Included types of GHG	Reference value	Unit of reference value	GHG intensity (in CO ₂ e (t) / reference size)	Unit intensity
40,123.40	Scope 1	11,378.10	flight hours	3.53	t CO ₂ /flight hour

305-5 Reduction of GHG emissions

We have done offsets to reduce our GHG emissions.

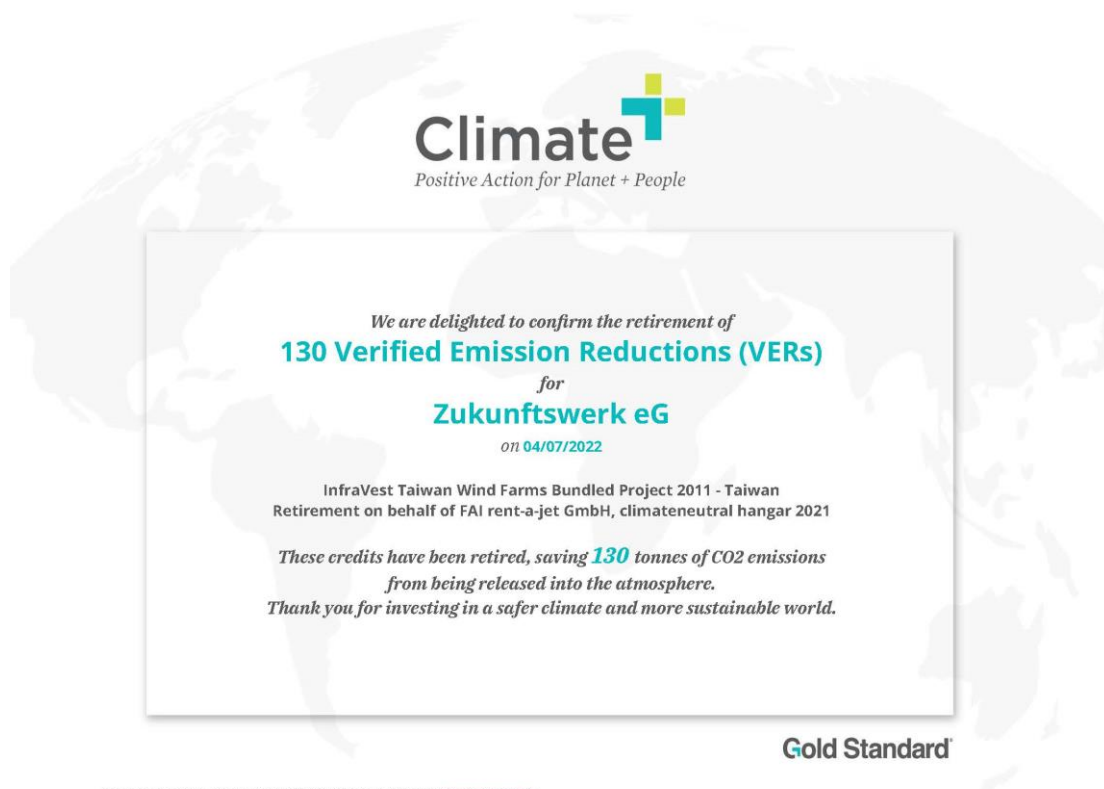

Table 33: Offsets to reduce GHG emissions

Initiative	Reduction (in t)	Affected GHG	Type of GHG	Base year / reference	Standards, methods, assumptions and/or calculation tools used
Wind farms Project	130.00	CO ₂	Scope 1+2+3	2021	Gold Standard Project

This year the Gold Standard Project chosen is the “InfraVest Taiwan Wind Farms Bundled Project” in Taiwan.

The project involves the development of two onshore wind farms (103.5 MW and a 46 MW). The project consists of 45 plus 20 wind turbines each with a capacity of 2.3 MW. The project will generate 507 MWh/year, which is delivered to the national grid. The electricity produced will be exported to the regional state electricity authority Tai-Power. Therefore the emission reductions from the project activity will come from the avoidance of carbon dioxide emissions from fossil fuel use at the national electricity grid.

Being a renewable electricity project not only will there be a reduction of CO₂ but also of greenhouse gasses (GHG).

Retirement certificates are hosted on the Gold Standard Impact Registry, [view your certificate](#).

Gold Standard | Chemin de Balexert 7-9 1219 Châtellaine, International Environment House 2, Switzerland | goldstandard.org, +41 22 788 70 80, help@goldstandard.org

305-6 Emissions of ozone-depleting substances (ODS)

At FAI rent-a-jet GmbH we do not produce, import or export ozone-depleting substances.

305-7 Nitrogen oxides (NOx), sulphur oxides (SOx) and other significant air emissions

Our organization emits significant air emissions.

Table 35: Significant air emissions

Type of air emission	Amount (in kg)	Method of calculation	Used standards, methods and assumptions
SO ₂	2,528.62	Calculation based on published emission factors	based on published criteria
NH ₃	2,174.61	Calculation based on published emission factors	based on published criteria
Particulate matter (total)	1,011.45	Calculation based on published emission factors	based on published criteria
Total of air emissions	5,714.69		

The air emission calculation is based on the basis of kerosene consumption. This was multiplied by emission factors for kerosene published by the German Federal Environment Agency in 2012 with the study Entwicklung eines Modells zur Berechnung der Energieeinsätze und Emissionen des zivilen Flugverkehrs-TREMOT AV [Development of a model for calculating energy consumption and emissions of civil aviation-TREMOT=Transport Emission EstimateModel>>]

GRI 306: Waste (in ref. to GRI Standard 2020)

306-1 Waste generated and significant waste-related impacts

Our organization is not aware of incidents that have released significant environmental pollutants.

In our organization both, non-hazardous and hazardous waste is generated.

During the reporting period, our organization has not transported, imported, exported or treated hazardous waste in accordance with the provisions of the Basel Convention, Annexes I, II, III and VIII.

Table 37: Non-hazardous waste by type and disposal method

Waste type	Amount (in t)	Method of disposal	Information on method of disposal
Paper / cardboard	4.55	Recycling	Information provided by the waste disposal contractor
Batteries	0.57	Recycling	Information provided by the waste disposal contractor
Waste not specified in the list (WCN 16)	2.83	Recycling	Information provided by the waste disposal contractor
Municipal waste including separately collected fractions (WCN 20)	300.00	Recycling	Information provided by the waste disposal contractor
Total of non-hazardous waste	307.95		

Table 38: Hazardous waste by type and disposal method

<i>Waste type</i>	<i>Amount (in t)</i>	<i>Method of disposal</i>	<i>Information on method of disposal</i>
Oil waste and waste of liquid fuels (except edible oils) (WCN 13)	2.15	Recycling	Information provided by the waste disposal contractor
Waste organic solvents, refrigerants and propellants (WCN 14)	0.15	Recycling	Information provided by the waste disposal contractor
Packaging waste	0.61	Reuse	No information available
Total of hazardous waste	2.91		

306-2 Management of significant waste-related impacts

All packaging materials and shipping cartons from our suppliers are re-used. The 300 tons of municipal waste, including separately collected fractions (WCN 20) is by far the largest amount of waste and consists of waste which has been disposed of as residual waste and paper from the offices, kitchens, etc.

Unfortunately, no exact figures are available concerning the amount and composition. Therefore, the daily volume of around 6 bags with a volume of 240 litres each, composition and hence the weight is an estimate. National and local regulations are exceeded by our company and annually we continue to keep waste to minimum.

306-3 Generated waste

Please refer to 306-1

306-4 Waste diverted from disposal

FAI recognizes how critical the issue of waste is. We try our best to avoid waste and pay close attention to recycling and sustainability. Waste that cannot be recycled is disposed of in accordance with regulations.

306-5 Waste forwarded for disposal

Please refer to 306-1

GRI 307: Environmental Compliance (in ref. to GRI Standard 2016)

307-1 Non-compliance with environmental laws and regulations

No significant fines or non-monetary sanctions imposed on the organization for non-compliance with environmental laws and/or regulations.

GRI 308: Supplier Environmental Assessment (in ref. to GRI Standard 2016)

308-1 New suppliers that were screened using environmental criteria

Due to the wide scope of the supply chain and the associated complex data we are not able to estimate the impact other supplies have on the environment at this point of reporting. Our hope for the future is that all suppliers we are using will conform to the Global Compact list of requirements.

308-2 Negative environmental impacts in the supply chain and actions taken

Our organization has not yet reviewed any supplier in relation to significant actual and potential negative effects on the environment. We have not currently planned such a project.

GRI 400: SOCIAL

GRI 401: Employment (in ref. to GRI Standard 2016)

401-1 New employee hires and employee turnover

Table 39: Employee fluctuations by gender and age group

Criterion	Number of staffs by criterion	Number of joiners	Joining rate (in %)	Number of leavers	Turnover rate (in %)
Total staff	251	41	17%	35	12%
By gender					
female	81	16	21%	17	19%
male	170	25	15%	18	9%
Age group					
< 30 years	38	16	48%	9	18%
30 - 50 years	145	18	13%	19	12%
> 50 years	68	7	10%	7	9%

Table 40: Workforce by country / region

Country / region	Number of staffs by region	Number of joiners	Joining rate (%)	Number of leavers	Turnover rate (%)
Germany	251	41	17%	35	12%
Total number of employees	251	41		35	

401-2 Benefits provided to full-time employees that are not provided to temporary or part-time employees

We provide our full-time employees with company benefits. The company benefits are the same for all significant business locations.

Our organization provides full-time employees with the following standard company benefits: Christmas bonus and capital-forming investments up to EUR 40.00 per month and a snacks / drinks contribution of EUR 10.00 per month.

Our employees with fixed-term or part-time work contracts are granted the same benefits as full-time employees. Only the Christmas Bonus is only paid for employees with over 50 % part-time.

401-3 Parental leave

Total number of employees entitled to parental leave by gender:

FAI does not provide data to the employees entitled to parental leave by gender.

Total number of employees who taken parental leave during the reporting period, by gender:

Female: 2

Male: 0

In the reporting period there were no work returners.

In the reporting period there was 1 termination agreement.

Both of our Managing Directors have children and therefore are aware how important the first few forming years in a child's life are. So, they support their employees' decisions for extended maternity/paternity leave. 100% of employees return to work after their paid leave is over and enjoy their work and family balance as we can offer them here at FAI rent-a-jet GmbH.

GRI 402: Labour/Management Relations (in ref. to GRI Standard 2016)

402-1 Minimum notice periods regarding operational changes

The typical notice period, for employees and their representatives, for significant operational changes that could fundamentally affect them, is three months. Co-determination is in our company not regulated by collective bargaining agreements. The introduction of notice periods for collective bargaining agreements and operational co-determination is not currently planned.

GRI 403: Occupational Health and Safety (in ref. to GRI Standard 2018)

403-1 Workers representation in formal joint management-worker health and safety committees

Our organization holds occupational safety and health committees (according to German law). Participants change from meeting to meeting, but most of the time all departments are represented. A specific percentage or number of employees attending is not written down.

403-2 Hazard identification, risk assessment and incident investigation

There are no activities with a high rate of disease or risk in our organization.

There are no known cases of work-related illnesses to report.

The most common reasons for sick days are Covid-related illnesses and quarantines as well as common cold/flu and stomach issues. Vaccinations are offered to all of the FAI rent-a-jet GmbH employees free of charge. Special insulation and special window panes make the headquarters building not susceptible to high noise levels.

403-3 Occupational Health Services

FAI is providing occupational healthcare examinations by our company physician which every employee is welcome to use.

403-4 Employee participation, consultation and communication on occupational health and safety

In our organization there is not yet a formal Employee participation, consultation and communication system on occupational health and safety established. We are currently working on establishing such a system. However every employee is welcome to make suggestions or remarks to this issue via a anonymous complaint box or via a direct conversation with the Department Heads.

403-5 Employee training courses on occupational safety and health protection

Every employee is trained regularly on occupational safety and health protection, especially regarding their work environment.

403-6 Promotion of employee health

FAI is providing occupational healthcare examinations by our company physician. These company physicians also advise our employees on non-occupational health services.

403-7 Avoidance and mitigation of health and safety at work impacts directly related to business relationships

FAI does not have any business relationships with any facility, product or service provider that falls under this aspect.

403-8 Employees who are covered by an occupational health and safety management system

According to German law, all employees are covered by an occupational health and safety management system.

403-8 Employees who are covered by an occupational health and safety management system

According to German law, all employees are covered by an occupational health and safety management system.

403-9 Work-related injuries

German law requires to only report work accidents with more than 3 lost days.

Table 41.1: Accidents more than 3 lost day per different categories

<i>Criterion</i>	<i>Number of females</i>	<i>Number of males</i>	<i>Total</i>
Number of accidents	2	6	8
thereof number of accidents at work	2	6	8
thereof number of commuting accidents	0	0	0
thereof fatal accidents	0	0	0

We have independent, locally-based contractors for whom we are responsible for safety at work, but we do not supply any data for this.

Accidents are written down in special accident sheets, provided by our statutory accident insurance (Berufsgenossenschaft für Verkehr, Munich branch). Also, accidents resulting in loss of life or more than 3 days sick note require a special report to the accident insurance.

For the calculation of 'days' we use 'scheduled work days'.

403-10 Work-related illnesses

Table 41.1: Accidents more than 3 lost day per different categories

Criterion	Number of females	Number of males	Total
Number of illnesses	0	0	0
thereof number of work-related illnesses	0	0	0
thereof number of commuting illnesses	0	0	0
thereof fatal illnesses	0	0	0

For the calculation of ‘days’ we use ‘scheduled work days’.

GRI 404: Training and Education (in ref. to GRI Standard 2016)

404-1 Average hours of training per year per employee

Table 44: Average number of hours of education and training by gender

Gender	Number of employees	Hours for education and training	Hours of training by gender
Total staff	251	3,222	12.84
female	81	722	8.91
male	170	4,317	25.39

At the beginning of the employment relationship all new employees are trained on safety regulations and familiarized with safety instructions and laws.

A continuous training program is in place to make sure knowledge is retained, built and continued. FAI rent-a-jet GmbH and its employees strive for the utmost professionalism and rely on experts in their field to train our employees to our highest standards.

The continuous training program, available to all employees, guarantees to FAI rent-a-jet GmbH and its employees that all professional requirements are not only met but exceeded.

404-2 Programs for upgrading employee skills and transition assistance programs

We offer education and training programs to our workers to improve their skills and knowledge. These are:

- Internal education and training courses
- Financial contributions for external training and further education programmes

We offer no transition assistance programs to our employees, who retire or whose employment relationship ends.

404-3 Percentage of employees receiving regular performance and career development reviews

The performance assessment of employees is carried out occasionally.

GRI 405: Diversity and Equal Opportunity (in ref. to GRI Standard 2016)

405-1 Diversity of governance bodies and employees

We specify the distribution of the staff and the members of the governance body by diversity category.

Table 47: Composition of the staff divided by gender and age

Diversity category	Number of employees	Percentage of employees (in %)
Total staff	251	100%
By gender		
female	81	32%
male	170	68%
Age group		
< 30 Years	38	15%
30 - 50 Years	145	58%
> 50 Years	68	27%

Table 48: Composition of the members of the governance body divided by gender and age group

Diversity category	Number of members of the governance body	Proportion of members of the governance body (in %)
Total staff	2	100%
By gender		
female	0	0%
male	2	100%
Age group		
< 30 Years	0	0%
30 - 50 Years	0	0%
> 50 Years	2	100%

405-2 Ratio of basic salary and remuneration of women to men

There is no difference between the salaries and remuneration of men and women in our organization.

At FAI rent-a-jet GmbH, remuneration is not based on gender but on educational level, experience, job performance and by time and service provided to the company.

GRI 406: Non-discrimination (in ref. to GRI Standard 2016)

406-1 Incidents of discrimination and corrective actions taken

During the reporting period no incident of discrimination was reported.

GRI 407: Freedom of Association and Collective Bargaining (in ref. to GRI Standard 2016)

407-1 Operations and suppliers in which the right to freedom of association and collective bargaining may be at risk

In our organization there are no business locations or suppliers where employees' right to freedom of association or collective bargaining is violated or could be seriously threatened.

GRI 408: Child Labour (in ref. to GRI Standard 2016)

408-1 Operations and suppliers at significant risk for incidents of child labour

In our organization there are no operations or suppliers considered as risky with regard to child labour and youth work.

GRI 409: Forced or Compulsory Labour (in ref. to GRI Standard 2016)

409-1 Operations and suppliers at significant risk for incidents of forced or compulsory labour

In our organization there are no operations or suppliers with a significant risk for incidents of forced or compulsory labour.

GRI 410: Security Practices (in ref. to GRI Standard 2016)

410-1 Security personnel trained in human rights policies or procedures

In our organization there is no directly hired security staff.

The training requirements and procedures of our organization also apply to third parties who provide security personnel to us.

GRI 411: Indigenous Rights (in ref. to GRI Standard 2016)

411-1 Incidents of violations involving rights of indigenous peoples

During the reporting period, no incident was reported regarding violation of the rights of indigenous people.

GRI 412: Human Rights Assessment (in ref. to GRI Standard 2016)

412-1 Operations that have been subject to human rights reviews or impact assessments

Table 49: Operations that have been subject to human rights reviews or human rights impact assessments, by country

Country	Number of operations	of	Number of operations assessed regarding human rights	Percentage of operations assessed regarding human rights (in %)
Germany	1		1	100%

The operations in our organization are examined with regard to human rights or human rights implications. The introduction of a systematic review of our operations in regard to human rights is planned in the short or medium term.

412-2 Employee training on human rights policies or procedures

To our employees of the organization, we offer trainings on the aspects of human rights.
