

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to quick changes in the business context related to those key drivers of financial sustainability of the organization. We believe a big part of the challenge has been managed, but we hope we have overcome the worst of the inflation and supply chain struggle. Nevertheless this has been a key point to learn and keep evolving. We understand the importance we have in our reporting and we will report our last COP as soon as possible.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 2022/10/05 at the latest.

Sincerely yours,

ENG. ANDRÉS FIGUEREDO
PROJECT MANAGER
