To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to a work backlog at our sustainability agency. Acumatica leverages an external agency for their expertise in sustainability – and they have notified us that they are unable to assist in this process in the near term due to workload from other clients.

I am writing this letter prior to the submission deadline to be transparent about the timing.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by October 1 at the latest.

Sincerely yours, *Todd A Wells*
