To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We sincerely regret to inform you that publishing, sharing and posting our COP report is slightly behind schedule. Due to high domestic needs for high-level sustainability reports, it seems to take some time to go through the verification procedure by specialized agencies.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by *30/September/2022* at the latest.

Sincerely yours,
