

EVERLESS

Amsterdam, July 14, 2022

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to two reasons. The first is that we had a significant negative backlash from the covid pandemic, which disrupted our sales, production and overall targets. The second reason is that we are in the process of restructuring and integrating our supply chain. We are sourcing new partners with the highest degrees of certification so we can increase our transparency and data points. The ultimate goal is to produce closer to our local markets so we can minimize our transport footprint and support local economies. This way we are aiming to significantly decrease our overall carbon footprint.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by [enter date here, max. 90 days from COP deadline] at the latest.

Sincerely yours,

Joost de Muinck Keizer
EVERLESS CEO
