Grace period letter for Seqens

Dear Madam or Sir,

We recognize that a key requirement for participating in the United Nations Global Compact (UNGC) is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN GC, a description of practical actions about the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes. As a proof, we always have been publishing our information since 2011.

In December 2021, Eurazeo sold its Seqens stake to SK Capital which has become the majority shareholder of the group. In parallel with this investment, Seqens is aligning its activities with those of Wavelength Pharmaceuticals, an SK Capital portfolio company specialised in the development and manufacturing of active pharmaceutical ingredients (APIs). Additionally, Seqens has also divested its Mineral Specialties business, which will remain under the control of Eurazeo and the other historical shareholders of Seqens.

Consequently, due to these major business and organizational changes, we are asking to postpone the publishing of our 2021 Communication on Progress which is due on August 22. We should be able to publish it by the end of September 2022.

Many thanks in advance for your comprehension.

Sincerely yours,

Gildas Barreyre
General Secretary
