

*21 st. July, Ciudad Autónoma de Buenos Aires*

To our groups of interest

We recognize that a key requirement for participation in the UN Global Compact is the preparation and annual publication of a Communication on Progress (COP) that includes a statement of continued support for the Global Compact, a description of practical actions in relation to the ten principles of the Global Compact, and a measurement of current or expected results.

This year, the Chamber of Medical Diagnosis Institutions (CADIME) will not be able to meet the deadline for the communication and publication of our COP due to a reformulation in the international relations area of CADIME, which caused the new human resources affected to the preparation of the COE did not arrive on time in its realization.

We hereby request an extension of the deadline in order to be able to send a COP that describes the efforts of our company and progress in the implementation of the principles of the Global Compact.

Our COP report will be published on the Global Compact website no later than October 21 st of the current year.

Sincerely

Guillermo Gomez Galizia

Presidente de CADIME
