CompanyPhone: +977.1.555.0700 e-mail: info@lotusholdings.com URL: www.lotusholdings.com	Exemplary practice from Nepal
From the CEO's Desk	<p>Nepal is still dealing with the effects of the Pandemic, but ongoing vaccination campaigns have helped reduce the fatality rate.</p> <p>The Nepalese economy is expected to grow in comparison to previous years, but at a slower rate due to the Ukraine war. Just like the other South Asian countries, Nepal is also suffering from price increases and financial sector vulnerabilities – with a major issue on liquidity. It is very important for measures to be made to help make sure that we have a healthy foreign reserve. We feel this problem is here to stay in the next 12 months as well, and our efforts have been to really focus on expanding our export based businesses.</p> <p>Our team is aligned with the country's and the business community's interest to help Nepal stabilize the financial crisis. This way, Lotus Holdings directly and indirectly remains committed to the principle of the Global Compact.</p> <p>Ajit Bikram Shah CEO</p>

Project Duration	From 1987
Background/Abstract	<p>Lotus Holdings was founded in 1996 by Mrs. Sulo Shrestha Shah, a Nepali woman entrepreneur. At inception, LH's aim was to provide incubation and support to its sister companies to promote responsible and ethical business practices. LH ensures outstanding quality of the products and services of its sister companies while ensuring sound working environment for all its employees.</p> <p>Realizing the immense opportunity in the fast growing sector, LH has brought forward venture investment. LH believes this form of investment in small scale industries would be beneficial for entrepreneurial development. The basic modality is to create an investment fund from interested shareholders. LH will ensure proper management of the investments through well-defined reporting and consultative meeting structures.</p> <p>Core Values</p> <ol style="list-style-type: none"> 1.Capacity Building 2.Institutionalization of companies 3.Professionalism 4.Transparency 5.Social accountability 6. Information dissemination
Initiative	<p>Lotus Holdings (LH) with a diversified investment portfolio is also an incubation specialist. LH is involved with entrepreneurs/ producers who have difficulty in their area of business and has inclination towards the concept of CSR. It is the philosophy of LH to be the backstopping instrument to such people/organizations by helping them in their revival and restructuring, or opening new companies if necessary, and also providing investment where required. Lotus Holdings looks forward to maintain its growth strategy to accelerate its current development rate.</p>
Challenges	The ruling government in the last 25 years has never been as strong

	<p>as it is today. With such power, it is important to realize that the responsibilities are even greater.</p> <p>Lotus Holdings in our engagement with the government has been carefully looking at the sectors it is involved in, and as an accountable member of the community at large, it has been working as a whistleblower for situations that may need attention from the right stakeholders.</p>
Impacts and Benefits	<p>Due to the initiatives undertaken by the organization, it is now a more responsible organization geared towards not only raising its productivity but also contributing to the society through local Corporate Social Responsibility (CSR) initiatives. Staff morale has heightened and the company's productivity has increased. The image of the company, a leader in adopting CSR in the country, has improved noticeably.</p>
Future Plan	<p>The organization will continue to raise awareness, enhance skills and knowledge of its employees. Our previous strategy to establish an investment fund has been realized. Lotus Holdings is now even aggressively looking for opportunities to explore into new sectors to invest.</p> <p>Pursuing a dream of a self-reliant, socially and economically developed society, Lotus Holdings believes in business with ethics. This has been the driving force behind the company and as it continues to grow into this millennium, it will remain in the business of helping people achieve these dreams.</p>
