Dear Mr. Secretary General:

I am glad again to take this opportunity to present Atlantic International University to the United Nations Global Impact.

Atlantic International University is an Online Institution based in the US. We believe that each student is unique and unrepeatabeable. We have students from more than 180 countries and each one of them has the opportunity to define his/her own path to get the knowledge he/she needs for his/her own development. Our students actively participate and volunteer in their communities as part of their academic program and have allocated over 100,000 hours of service to diverse causes and initiatives. Our Philosophy of Studies is based on Andragogy, Adult Education, in which the student is the most important person in the Learning process.

AIU is accredited by ASIC, "Accreditation Services for International Schools, Colleges and Universities" in the UK.

We confirm to you our commitment to the ten principles of Global Impact, supporting the UN Goals and the annual submission of the Communication Progress.

We hope you will consider our application and we look forward to joining your organization and make a positive impact in the world.

Sincerely
