Part II. Description of Actions

As a civil society organization we have continued to engage with the UN and with companies to further the UN sustainable Development Goals, particularly those related to inclusion of persons with disabilities, ending poverty, education and decent work. Sense International has supported advocacy at the UN World Data Forum, at the Conference of State Parties to the UN Convention on the Rights of Persons with Disabilities, at the High-Level Political Forum with an intervention on climate change and building back better, and at other international summits such as the Global Disability Summit. At the national level we have engaged with organisations such as UNICEF and UN Women to further the rights of persons with disabilities. We engage with companies on their inclusion agenda, providing expertise on the inclusion of persons with disabilities. Additionally, we have worked further to track, baseline and reduce our own environmental footprint.
