### Statement of continued support for the United Nations Global Compact

I am pleased to re-confirm Vodacom Group's support of the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

We remain committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects, which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

We believe technology and connectivity can enhance the future and improve people's lives. Our strategy is informed by our operating environment and is framed within the context of our purpose – connecting for a better future. This enables us to deliver future-ready products and services, contributing to increased digital and financial inclusion, while seeking solutions to environmental challenges. Underpinning this, we hold ourselves accountable to responsible business practices and we measure our progress and provide transparent and balanced communication to our stakeholders.

The COVID-19 crisis led to a reversal of progress on some SDGs, particularly in developing countries. Digital technology is an essential tool to reduce these impacts, and to help progress towards delivering the SDGs.

We will continue to engage and work with the UN Global Compact, governments, other civil society organisations, industry and international organisations to address the digital divide and accelerate progress toward the SDGs by 2030.

Yours faithfully

MOHAMED SHAMEEL AZIZ JOOSUB  
CHIEF EXECUTIVE OFFICER
